

A very simple palm branch!

This palm branch is an extremely quick and simple thing to make. It's easy for young children to hold, and makes a cool swishy sound when it is waved!

Start with a piece of green paper. (Tip: if you don't have any coloured paper: just use a green crayon to colour in a white piece of paper!)

Cut some strips with your scissors - only going halfway down the paper. The strips can be as thick or thin as you like!

Roll it up!

...and secure with Sellotape

Decorate with sparkly bits/stickers/crayons/pom poms or whatever you have lying around 😊

Now you are ready to wave it for Jesus!
