

## Knowledge organiser – Year 2 - Weather and Seasons

### What will we be learning?

- What are the months of the year and seasons?
- What are the differences between the seasons?
- What are the features of different seasons?
- What clothing should be worn in different weather?
- What are the types of weather in the UK?
- How does the weather affects different jobs?

### Key facts

#### The months of the year:

January, February, March, April, May, June, July, August, September, October, November, December.

#### The seasons of the UK:

autumn, winter, spring and summer

### Key knowledge

In the UK, there are four different seasons. Each season has different weather types.

Winter is cold, wet and windy. It snows in some areas and gets dark early.

Spring brings warmer weather. Flowers start to grow and baby lambs are born.

In summer, the weather becomes hotter; there is often less rain, but there may be thunderstorms.

The weather starts to get colder in autumn. Leaves change colour and fall off the trees.

Place names	Geographical terms and processes	Locational terms
Antarctica Earth <i>My school</i>	rain season snow sunshine temperature wind	Arctic inside outside polar

### Glossary

**rain gauge:** *a tool you can use to show how much it has rained*

**season:** *a time of the year with a particular type of weather*

**temperature:** *how hot or cold it is*

**weather forecast:** *explaining what the weather will be like*
