

Key Facts

- It is important to know how to make a clear and efficient call to emergency services, if necessary.
- Understanding the basic concepts of first aid and how to deal with common injuries can be.

By the end of these topics, I should:

- identify a range of situations that may require first aid
- understand how to support someone with a minor burn or scald
- understand how to support someone who is having a heart attack
- understand how to support someone with a fractured bone
- know when to call for medical help

I will learn the following new words/phrases:

Minor	<i>Lesser in importance, seriousness, or significance.</i>
Seizure	<i>A sudden, uncontrolled electrical disturbance in the brain.</i>
Nauseous	<i>To feel sick in your stomach, as if you might vomit.</i>
Incident	<i>An event or occurrence.</i>

Ask me a question!

- What should you do if you believe someone is having a heart attack?
- How could you treat a minor burn or scald?
- How could you spot a broken/fractured bone?
