***Living, Loving, Learning in God's Care***

## **Our Vision and Mission**

### **School Motto**

Living, Loving, Learning in God's Care

### **Vision Statement**

Our St Mary's church school family lives by the life and teachings of Jesus. We provide a safe and loving environment, whilst aspiring for all children to achieve their full potential within God's care.

### **Mission Statement**

O Lord, teach me how you want me to live! Psalm 86:11

This scripture verse reminds us that our Christian values underpin how we live and how we learn, through a unique and deep curriculum, grounded in God's love.

The school will put safety and wellbeing at the centre of everything we do.

Through our vision, values and motto our mission is to:

- Develop the children academically, creatively and spiritually through a high quality, stimulating and memorable curriculum, that celebrates difference and values everyone
- Encourage each child's knowledge and skills, through experiences to reach their full potential and to instil a life-long love of learning
- Share our school with the church and community to further develop religious literacy
- Foster a deeper understanding of other faiths and cultures and encourage attitudes of tolerance, democracy and advocacy

## **St Mary's Strategic Goals (Review and Refresh)**

### **Vision 2020 – Project Background and Aims**

In 2018 the Governing Body of St Mary's Church of England Primary School began a review and consultation with Key Stakeholders with the aim to develop a strategic vision to guide the school to 2024 and beyond.

### **Background**

St Mary's Church of England (Aided) Primary School is set in extensive grounds in a rural village on the Staffordshire/Shropshire border, our nearest neighbour being St Mary's Church. The school was built in 1964, with extension in 2004. It currently has three classrooms, hall, kitchen and small library. We are a small school that offers staff, pupils and parents the opportunity to closely interact with each other and the local community through regular church and community celebrations and events. During COVID19 the children continued close interaction through live lessons with their individual teachers.

The school serves the ecclesiastical parish of Mucklestone, but most of our children live in Loggerheads, Market Drayton or the wider rural area. Parents often choose the school because of its small size and welcoming and nurturing Christian atmosphere. As a Church of England School (rated Outstanding by SIAMS) the school also plays a vital role in forging strong links between the church, parish and local community.

### **2021 Review Key Stakeholder Consultation**

The consultation process with Governors, staff, pupils, church and parish community was made more problematic due to COVID 19. The Governing Board decided to complete a mix of online, questionnaire and where possible face to face interviews. For ease of purpose the Governing Board compiled a standardised interview question sheet to review the school strategic goals.

The discussions considered what had been achieved and our future direction:

- Key stakeholders consider the provision of a fourth classroom to enable permanent class groups of no more than 2-year groups to be the best teaching and learning option for our pupils
- To enable whole school events and celebrations we should consider options to extend school classrooms along with improvements to the hall space as a priority
- Our school community is proud of St Mary's academic and extra-curricular achievements, particularly in music and the many links with the wider community

- St Mary's is highly valued as a faith school with a strong Christian ethos and the pupils show clear understanding and concern for local, national and global concerns. This has a significant impact on the spiritual, moral, social and cultural development of all learners
- The positive behaviour and good relationships between all members of the school community are consistently attributed to the Christian character and teaching of the school. Highlighted in the discussions was the positive role model displayed by our current Headteacher through involvement in church and community events
- We place great importance on our school community values and maintain them at the heart of all we do - this is the connection and conduit between intrinsic and extrinsic influences for all of our children - their belief and moral compass impacts positively on their attainment and progress - they believe and are inspired, and then achieve
- The school will strongly advocate the value of building resilience in our pupils through education, community events and stronger links with other primary and secondary schools
- As a small school we will support and raise our sporting opportunities for our pupils in the community and with other schools
- Covid 19 has challenged the education provision and health and wellbeing of our whole school community. We will robustly evaluate how the school met those challenges which will inform future planning and resourcing of our continuing curriculum and provision
