

Level 3 – Alien Families

Adult Guidance

How to Play

- This game is similar to Happy Families. It is suitable for two or more players.
- Divide the cards equally between the players.
- Each player keeps their cards hidden from the other players.
- Take it in turns to ask the other players for an alien from one of the word families that you already have, e.g. 'Do you have an alien from the 'ar' family?'
- If the player does have a card from that family, they must give the card to the player who asked them.
- The aim of the game is to collect as many alien families as possible. Each alien family has four aliens to collect.
