Can you design a kite on the blank template provided? Try to follow the instructions in the box below.

This is a traditional Malaysian kite.
You can only use **red**, **brown**, **blue** and **yellow** colours.
You must try to use circle shapes and diamond shapes.

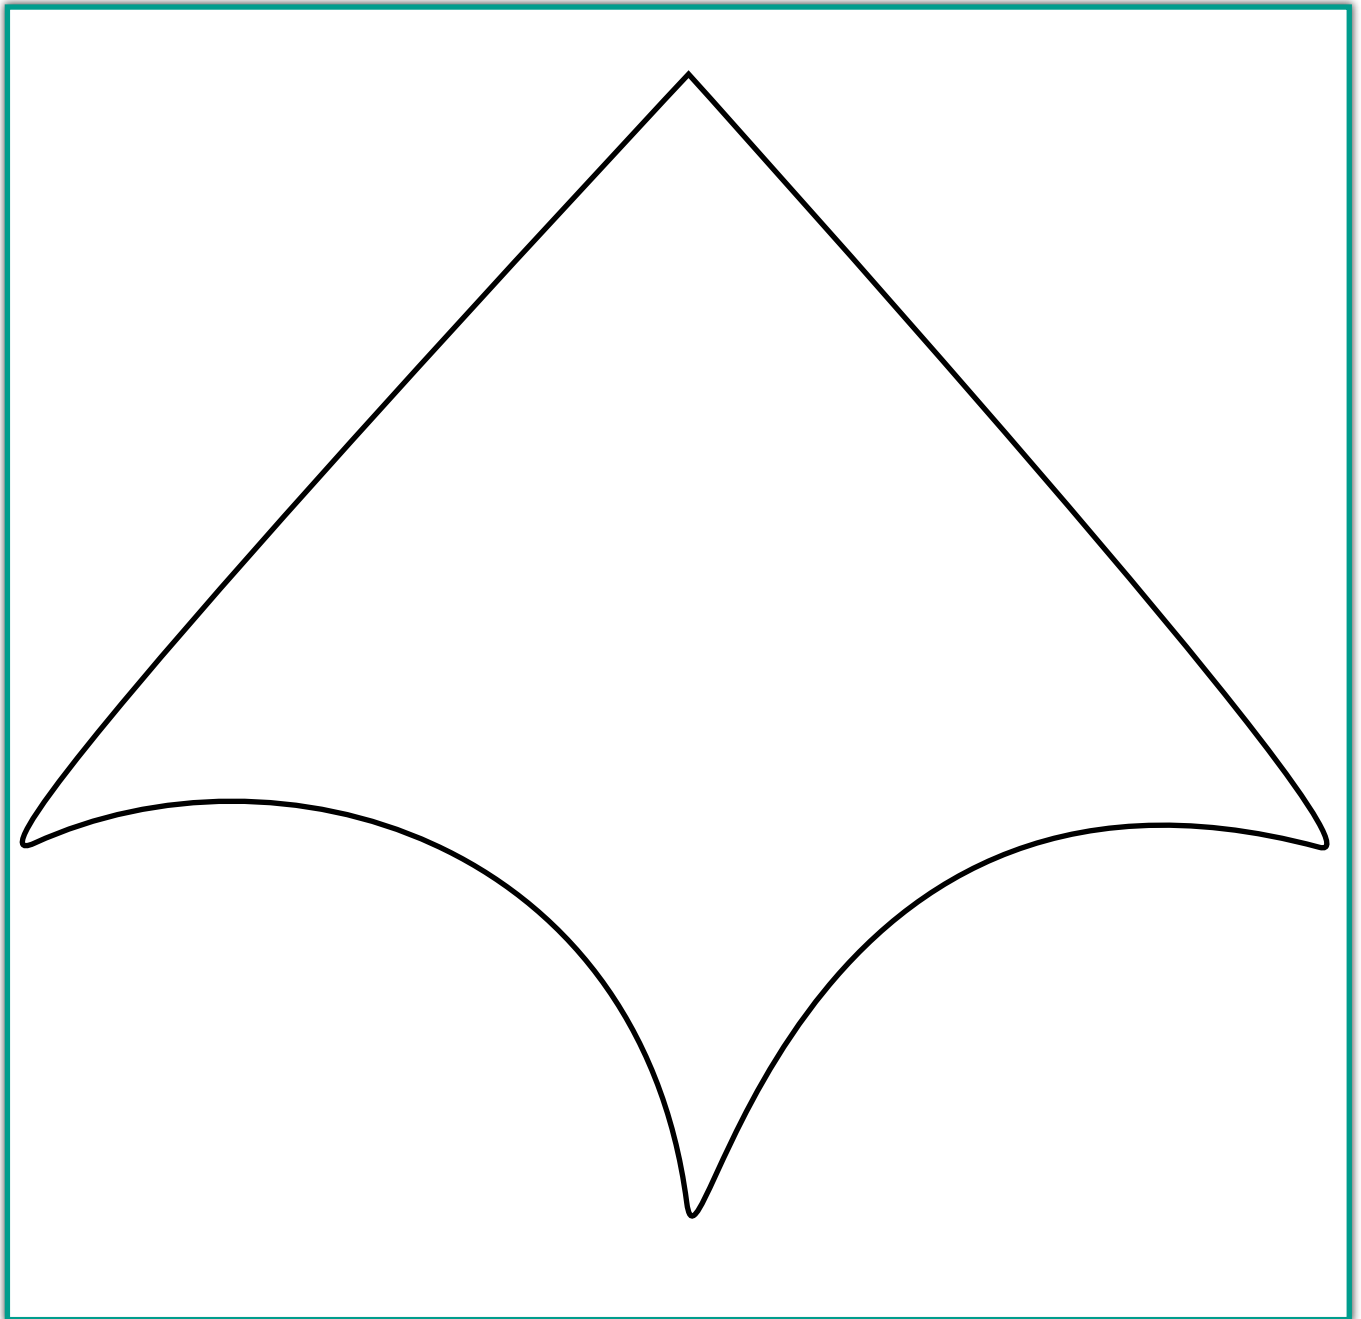

Good luck!

Can you design a kite on the blank template provided? Try to follow the instructions in the boxes below.

This is a stunt kite.
You can only use **black**, **pink**
and **green** colours.

Good luck!

Can you add some stars to your
design?

You must try to add tails to the kite.

Can you design a kite for these scenarios? Remember to use colours, pictures and patterns to suit the situation.

Help! Birds keep eating my carrots and potatoes.
I need a kite to SCARE them away!
Can you design me one?

I want to mark birthdays as a special occasion in my family. I want a kite to fly outside my house every time someone has a birthday.
Can you design me one?

I want to start a kite festival. The theme this year will be African animals.
Can you design an African animal kite for me?

I celebrate New Year's Eve on the 31st of December. It is a fun and busy night.
Can you design a kite I can fly for this celebration?

Look at these kites!
Guatemalan people construct and fly these kites to send messages to the 'spirits in heaven'. What can you see?

Let's make a Guatemalan Kite!

1. Use the circle template to design your kite.
2. Remember to use patterns, bright colours and circle and diamond shapes in your design.
3. Draw a large circle onto white paper.
4. Construct your design using tissue paper, coloured paper and bright felt-tipped pens.
5. Cut out your kite and attach the wooden skewer to the back, in the centre.
6. Rip strips of tissue paper into long rectangles and stick them to the edges of the kite.

Here are some examples!
