SEND INTENT, IMPLEMENTATION AND IMPACT STATEMENT

Mission Statement:

St. Matthew's C.E. Primary School and Nursery is dedicated to providing an education which enables every child to fulfil their best potential. It seeks to promote academic, emotional and spiritual growth in a Christian environment, welcoming children drawn from diverse cultures.

Vision Statement:

Inspired by Jesus' words (Matthew 5: 1-12), we strive to promote academic, emotional and spiritual growth in a Christian environment for all members of our school family.

We can all '**Be blessed by God, be happy and aspire to be...**'

It is our aim at St Matthew's CE Academy that all children, regardless of background, ethnicity or level of need, are supported to flourish in all areas.

We value each child as a unique individual. We aim to provide an environment where all children feel safe and valued. We respond to individuals in ways which take into account their varied life experiences and particular needs. Every effort is made to enable all pupils to learn and to grow independently.

St Matthew's Academy is committed to providing an education that enables all children to make progress so that they achieve their best, become confident individuals living fulfilling lives and make a successful transition into adulthood.

We firmly believe that the best start in life is key to future success and that Quality First Teaching is the building blocks of excellent learning and excellent progress. We strive to ensure that every child receives the best teaching and learning possible which will help our children to succeed - high quality teaching, adapted and adjusted to meet individual needs.

Realistic and challenging experiences are set to meet the individual needs of all our children. These take into account gender, special educational needs, disabilities, social and cultural backgrounds, ethnicity and diverse linguistic backgrounds.

At St Matthew's Academy, we are committed to providing an environment, which encourages all pupils to maximise their potential.

Where a need is identified we will endeavour to find the best ways to adapt and personalise learning opportunities and aids to maximise potential. We will look for the newest research and seek out the advice of those who can help. We are committed to ensuring that all barriers to learning are overcome without compromising progress, quality of learning, access to the curriculum or equipment.
