

Sheet 4

LO: make character inferences

You are going to write a diary entry in role of the fairy. Think about how she may have felt at the end of the story when she had sent the old lady back to her vinegar bottle. *Do you think she would have been happy? Why? What made her send the old lady back? Do you think she regretted doing this?* I have started an example for you. Remember to:

- start your writing with 'Dear Diary'
- make sure your first sentence explains what your day has been like
- explain what has happened
- explain how you feel (I...)

Dear Diary,

Today has been a crazy day!

It all started when I went to see the old lady who I helped become the Queen of the Kingdom. I thought she was going to thank me for helping her, but when I saw her she just started complaining...again! I was so angry with her that I sent her back to her old and small vinegar bottle house. I feel really guilty for doing this but I had no choice because she is the most ungrateful lady I have ever met!

Anyway, I have to go now. There are more people I need to help.

Bye x
