

Year 5 maths target:

Doubling and Halving 0-100

Connect Four

Instructions

1. Player 1 picks a number.
2. Toss a coin. Heads means double and tails is to halve.
3. Complete the sum and colours (initials) in the square
4. Player 2 picks a number and repeats the instructions
5. The aim of the game is to get four numbers in a row horizontally, vertically or diagonally.

E.g. Miss Brennand plays first she chooses 62. She tosses a coin. It lands on tails. She halves it. The answer is 31. She colours it in red. It is then Yusuf's turn. He can choose any box but not the boxes which Miss Brennand has labelled/coloured red.

62	98	31	42	8	18	64	55
9	29	85	63	44	29	22	76
72	40	45	1	28	59	21	88
97	56	43	57	24	11	2	100
8	51	26	33	91	43	66	62
10	83	46	71	87	39	43	79
15	78	16	36	6	47	13	60
2	70	25	55	14	20	67	9
