Dear Parents and Carers,

St Michael's mathematics department are delighted to inform you that students will be completing their maths homework with Sparx Maths again this year.

Sparx is an exciting online platform that offers every student a personalised maths homework. We know that you want to support your child's maths progress, so we've put together this letter to explain how Sparx works and why it is important to make sure that maths homework is 100% completed.

How does Sparx homework work?

Sparx personalises each child's homework, creating a weekly set of questions tailored to their level of understanding and learning pace. The questions are designed to be achievable whilst offering the stretch that learners need to make progress. Each week, topics are set by your child's maths teacher and will make up the majority of the homework questions. Questions from previous topics will also be included in the homework so that students can keep practising the skills they have learned. Last year St Michael's students completed almost 7,000 hours of personalised learning and we're hoping to surpass that this year!

How can I help my child with their homework?

We appreciate that you will of course want to support your child with their home learning but please try not to help them with a question until they've had a go first. It is important that they complete their homework independently, and that questions are marked as correct. They can watch the support video if they need to. This way, Sparx can make sure your child continues to see homework that's at the right level for them.

Why does my child need to achieve 100% compulsory homework completion?

Sparx homework is deliberately designed to help students really get to grips with and understand the concepts and skills they are learning by ensuring they cover the essential building blocks needed to make progress in maths. It is therefore advised that students do their homework as early as possible, so they have the time to have a go themselves and seek help from their teacher if needed. Homework is not marked as complete until all of the compulsory questions have been answered correctly, so starting early is key to finishing before hand-in time.

You can keep track of your child's homework completion in the weekly email you will receive from Sparx. We hope you agree that Sparx will play an exciting and important role in helping your child's understanding, success and confidence in maths to grow. **Please see the reverse of this letter for additional information and guidance for getting logged into Sparx.**

If you have any questions, please contact your child's maths teacher.

Yours sincerely,

St Michael's Mathematics Department
