

Year 11 Collapsed Timetable

Public Examinations Summer 2024

Introduction

To support you through the examination period there have been some changes made to your usual school timetable. When it comes close to each examination, revision sessions will be provided in your examined subject to ensure that you are well prepared. Revision sessions are shown in green on the timetable and you will come out of your normal lessons at this point to work with your subject teacher before the exam. This booklet shows day by day which lessons you will have and where the additional revision sessions are scheduled. There will be times when you will be in your normal lessons and these are shown in grey. On the timetable you will see Y and B to indicate the lessons or revision for the Y and B sides of the year.

Before each examination you will have an exam warm up, this is where your teachers will go through the last few key pieces of information before the exam. Warmups are shown in a peach colour on the timetable and usually begin at 8:50 am for morning examinations and 1:15pm for afternoon examinations. It is very important that you arrive at least 5 minutes before warmups are due to begin to avoid interruptions and to enable teachers to make the most of the time. You should bring your revision notes and writing equipment to warmups and this is a great opportunity to ask any last minute questions that you may have.

The key below explains the different parts shown on the timetable:
