Investigate

What is tempo? It is an important part of every piece of music and can change how a piece of music sounds and feels.

Watch this video about tempo and duration on BBC Bitesize music to find out more:

<https://www.bbc.co.uk/bitesize/topics/zcbkcj6/articles/z3yfng8>

We can play short or long notes and this is the duration of the notes. The speed of the music is tempo.

Warm up playing some notes on your instrument. Can you remember hot cross buns from the first work sheet? Play hot cross buns very slowly then as fast as you can and see what you think? Did changing the tempo change how much you liked the piece of music?

Listen Up!

Tempo can be used to change the feel of a piece music and help the composer to musically represent something. A composer called Saint-Saens uses tempo in carnival of the animals to help represent different animals. Would you choose a fast or slow tempo for a cat, snail, hippo?!

Listen to the tempo Saint-Saens chose for these animals:

Another composer who wrote a piece of music about an animal is Rimsky Korsakov. He wrote flight of the bumble bee.

What do you think of the tempo? Can you imagine a bee flying about when you listen to it?

We are going to be working on the piece Mamma Mia, listen to it on YouTube
