

Year 4 Autumn Newsletter

A very warm welcome to this new school year. We are delighted to be a part of your child's learning journey as they enter Year 4. We have lots of lovely, exciting topics in Year 4 to look forward to. Mrs Pemberton teaches every Monday, Tuesday, Wednesday and Friday, and Mrs Craft teaches every Thursday.

Please do not hesitate to get in touch with any questions. Mrs Pemberton and Mrs Craft.

English

We will be studying a range of text types throughout the term including non-chronological reports, fictional novels and poetry largely linked to other topical areas such as Ancient Greece, migration and the world around us, to help us model our writing. We will develop our use of punctuation and sentence structure over a range of writing genres from Narrative poetry to Newspaper reports.

We will regularly learn new vocabulary and ensure we practise and extend our grammar skills as part of daily learning. The children will read a range of texts in a variety of ways throughout the year. The children will have individual books, will share whole class texts and will regularly have opportunities to practise and refine their fluency and comprehension skills.

Handwriting will be a focus this term, ensuring children form all letters and joins correctly and present their work to their best ability.

Spelling will be assessed weekly (Friday) through a variety of activities, which will not always be in test format.

My Personal Best

Our words this term are
'Integrity and Reflection'.

Throughout our lessons, we will explore what this means and how we can demonstrate this to others in P.E and across the school day.

French

The children will recall and understand French greetings. They will also start learning numbers up to 100 and talk about age and birthdays.

Mathematics

Children will consolidate knowledge and understanding of place value, practising fundamental skills regularly. We will learn formal written methods for both addition and subtraction and will apply these skills over a wide range of context using up to 4 digit numbers. Children will develop their understanding of the number system to 10,000 to calculate with confidence, reasoning and problem solving. Daily fluency and retrieval are embedded into our curriculum to ensure increasing confidence with number. We will also be extending our knowledge of perimeter and area.

Regular times tables practise is crucial in Year 4 (both in school and at home) Times Table Rock Stars is great for this! Children are expected to know all of the times tables up to 12x12 by the Summer term.

R.E.

This term we will be studying three themes: Domestic Church (People), Reconciliation (Sacramental Preparation) and Advent/Christmas (Gift). The children will be learning about Jesus's human family and God's gift of love and friendship. In Year 4, we will be looking to John 4: 9 for inspiration "God sent his only Son into the world so that we might live through him." Later in the term we will study Judaism, with a focus on the Torah.

Science

The Science topics to be covered this term are 'States of Matter' and 'Sound'. We will be exploring solids, liquids and gases and also investigating sound, covering vibrations, soundproofing, pitch and volume.

History

We will learn about the Romans and how Britain became part of the Roman Empire. We will also focus on Boudicca and the impact of Roman settlements in Britain.

Geography

After half-term, we will learn about coasts, including erosion and key coastal features. We will explore famous coasts around the world, how and why it is important to save our coastlines and keep our beaches healthy.

Computing

During the first half term, we will design and create an educational game taking the role as 'Software developers.' In the second half of the term, the children will be designing toys using programming software. Online safety and digital literacy is woven throughout our curriculum.

P.E

P.E will take place each Monday afternoon. Please ensure that your child comes **to school** in the correct, labelled P.E kit. It is recommended that children bring their red P.E shorts into school at the beginning of each half-term and keep them in school for the duration.

Children will commence a daily 2 week block of swimming **Monday 13th October – Thursday 23rd October. Further information to follow.**

Design Technology & Art

Our DT and Art work will be closely linked to History. We will be exploring classical ceramics and contemporary mixed media illustration. We will be developing our fundamental skills in drawing, sculpture and collage. In DT, we will develop our food and nutrition knowledge and will explore seasonal crafts.

Music

The children will learn to sing a broad range of unison songs and describe and compare different types of music. They will learn to play and perform melodies, understanding some musical notes and begin to compose music to create a specific mood.

Home learning / home links

Homework will consist of regular rehearsal of spelling and times tables and regular reading. Spellings will be given half termly and practised in class across the week. A homework sheet will be given out on Fridays to be returned by the following Friday. This will begin Friday 12th September. Please ensure that your child is regularly accessing the learning apps provided by school including Times Table Rockstars and Reading Plus. Children will have their own banded reading book and reading record. Please read regularly with your child and annotate their log. Books should be available **each day** in school and will be changed when required.
