

### Zones for Lunchtimes

Below are the zones for the playground equipment. Please ensure that these zones are adhered to. The children **can** move between the zones but the zones are where the equipment is to be kept. If the children go to a different area with the playground equipment, ask them to return to the zone with it. **Do not** allow children to go where they please with the equipment.

Staff members on duty need to be in the vicinity of the 'smiley faces' so they can keep an eye on the children in the zones around them. Obviously, if there are more staff out then more zones can be marshalled.
