

Posting Completed activities on Google Classroom

As well as typing comments on the Stream, you can also post completed activities for teacher and friends from your class to see.

To do this – click in 'Share something with your class' on the stream tab.

You will need to type a message explaining what you are posting and then click on the 'paperclip / add' button. From here you can upload a file or if you are on an Ipad share a photo of your work.

You then need to click 'Post' and everyone will be able to see what you have posted.

Everyone can comment on the stream – remember kind words only.
