

Mr Paul Fielder

STAFF GOVERNOR

I have been working at St. Ursula's Catholic Primary School as a teacher for the past 5 years. I began my career at the age of 24 as a student teacher in Year 3 and I am now currently a teacher in Year 6 leading two subjects, Modern Foreign Languages and Physical Education.

My love for learning began when I started to prepare for my GCSEs whilst attending Campion; having the opportunity to be more independent in my studies led me to appreciate the pursuit of knowledge. I took time to examine my interests such as history, film, and the great outdoors and then explored how I could develop these interests. My fascination for religion led me to achieve a Bachelor's degree with honours in Theology, Philosophy and Religious Studies and my love for nature motivated me to complete the Camino de Santiago.

Teaching requires a lot from a person; it is a dynamic profession forever evolving and adapting. It is for this reason why I love teaching. Every lesson you teach, every interaction with a parent or a child will result in you learning something new about your profession. I am very excited about representing my fellow colleagues on the board of Governors and working with the other Governors to ensure that St. Ursula's keeps its well-deserved status as an outstanding school.
