Health and Social Care in the Media

It is important to make the public realise about the issues which are prevailing in society relating to health and social care. One way in which public awareness is raised about health and social care in general and issues that exist within the health and social care sector is through the media.

Your task is to pick...

- x1 Film
- x1 Book
- x1 Documentary

You will then be asked to write an essay with the following title: **'Discuss the portrayal of Health and Social Care within the media'**

You must watch/read the some of the examples on the previous slides you have picked and create notes to help with your essay. Consider the following:

- What issues, if any, are being raised in the stimulus?
- How does the stimulus present H&SC?

Is the stimulus informative/helpful and why?

- Are there any quotes/scenes etc that stand out to you and why?
- How effective is the stimulus in raising public awareness about H&SC/Issues?

This list is NOT exhaustive there may be other questions/ideas you wish to consider as you watch or read.
