

St William's Catholic Academy:

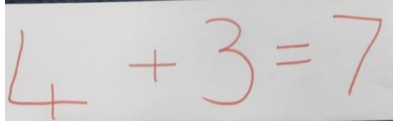

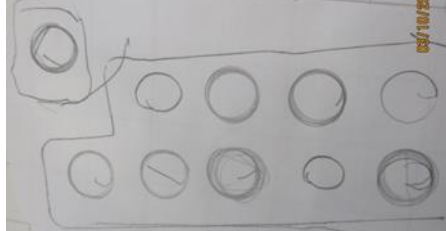

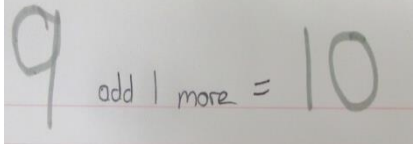

Calculation Guidance For Addition and Subtraction

(Last Review: Summer Term 23)

	EYFS	YEAR 1	YEAR 2	YEAR 3	YEAR 4	YEAR 5	YEAR 6
	<p><u>Addition</u></p> <p>Use quantities and objects to add two single digit numbers and count on to find the answer</p> <p>One more</p> <p>Begin to use appropriate vocabulary</p>	<p>Regrouping to make 10 using 10 frames. Starting at the bigger number and counting on using concrete materials</p> <p>Combining two parts to make a whole: part whole model</p> <p>Represent and use number bonds to 20.</p>	<p>Combine two numbers</p> <p>Use known facts</p> <p>Adding 3 single digits</p> <p>Adding set of 10.</p> <p>Bar Model</p> <p>Add a 2-digit number and ones, two 2-digit numbers. 3 1-digit numbers</p>	<p>Add numbers mentally up to three digits</p> <p>Add numbers with up to three digit using a formal column method</p> <p>Column addition without regrouping.</p> <p>Column addition with regrouping.</p> <p>Use inverse operations to check answers</p>	<p>Add numbers with up to four digits using formal methods</p> <p>Estimate and use inverse to check calculations</p> <p>Solving addition two-step problems in context.</p> <p>Column addition regrouping.</p>	<p>Add whole numbers with more than four digits using formal methods</p> <p>Add numbers mentally with increasingly large numbers</p> <p>Use of place value counters for adding decimals.</p> <p>Column addition regrouping.</p>	<p>Using knowledge of the order of operations to carry out calculations involving all four operations</p> <p>Use of place value counters for adding decimals</p> <p>Abstract methods</p> <p>Column addition regrouping.</p>
Key language: sum, total, parts and wholes, plus, add, altogether, more, 'is equal to' 'is the same as'.							
	<p><u>Subtraction</u></p> <p>Use quantities and objects to subtract two single digit numbers and count back to find the answer</p> <p>One less</p> <p>Taking away ones</p> <p>Begin to use appropriate vocabulary</p>	<p>Subtract one and two digit numbers to 20 using 10 frames</p> <p>Starting at the bigger number and counting back using concrete materials</p> <p>Taking away ones</p> <p>Find the difference</p> <p>Introduce Pictorial method: Part part whole, Make 10 and Bar Model</p>	<p>Subtract two numbers</p> <p>Regroup a ten into ten ones.</p> <p>Partition to subtract without regrouping.</p>	<p>Subtract numbers mentally up to three digits</p> <p>Subtract numbers with up to three digit using a formal column method.</p> <p>Column subtraction without regrouping.</p> <p>Column subtraction with regrouping.</p> <p>Use inverse operations to check answers</p>	<p>Subtract numbers with up to four digits using formal methods</p> <p>Estimate and use inverse to check calculations</p> <p>Column subtraction include regrouping.</p>	<p>Subtract whole numbers with more than four digits using formal methods</p> <p>Subtract numbers mentally with increasingly large numbers</p> <p>Column subtraction include regrouping.</p>	<p>Using knowledge of the order of operations to carry out calculations involving all four operations</p> <p>Column subtraction include regrouping.</p>
Key language: take away, less than, the difference, subtract, minus, fewer, decrease.							

Addition Guidance

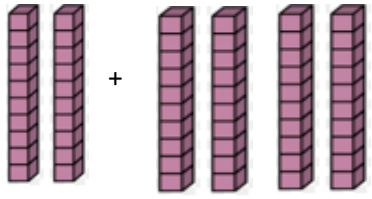

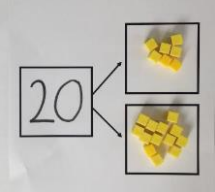

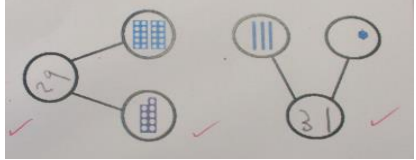

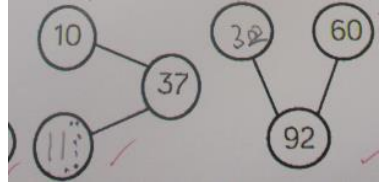

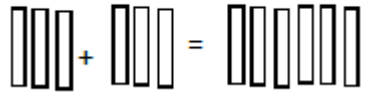

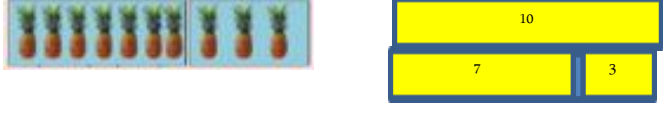

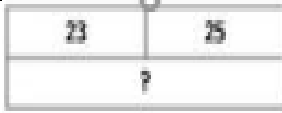

EYFS

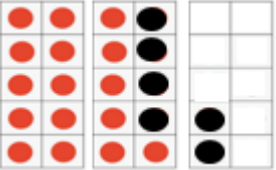

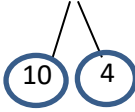

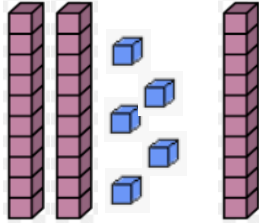

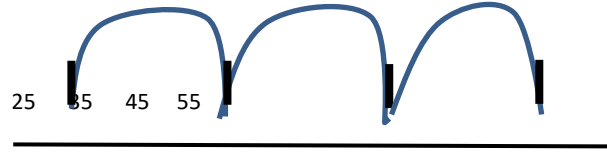

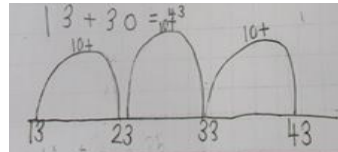

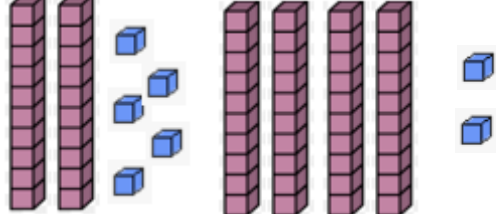

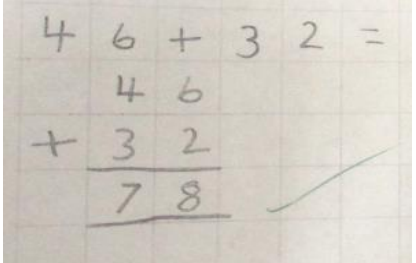

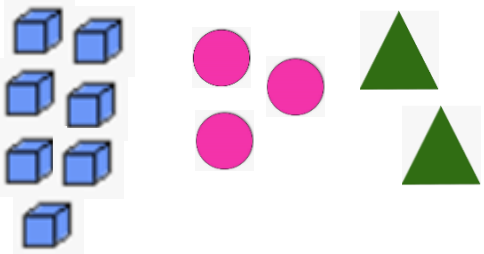

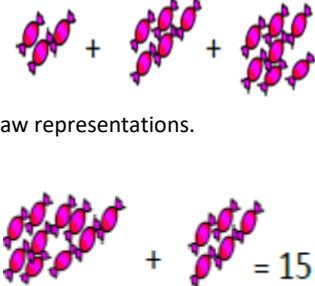

Objective & Strategy	Concrete	Pictorial	Abstract
<p>Use quantities and objects to add two single digit numbers and count on to find the answer.</p>	 <p>'Four toys and I add three toys... how many altogether'</p>	 <p>Draw a representation of each number and group together</p>	 <p>Starting to form number sentences</p>
<p>One more.</p>	 <p>'Nine toys and one more makes 10'</p>	 <p>Draw a representation of each number and group together</p>	
<p>The introduction and use of appropriate vocabulary is important at this stage.</p>			

Y1 ADDITION

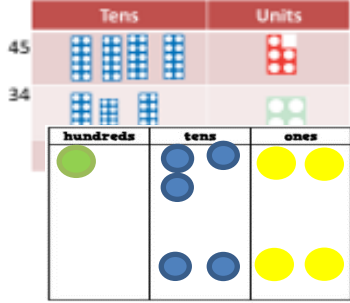

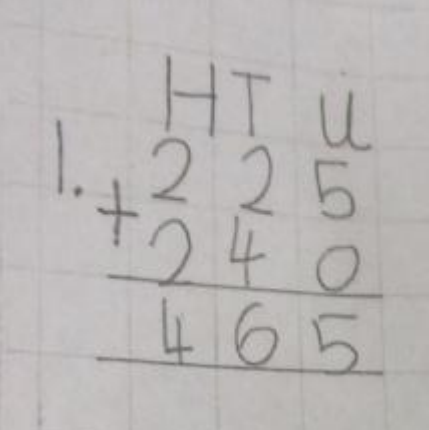

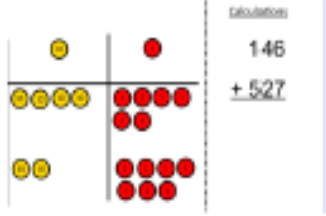

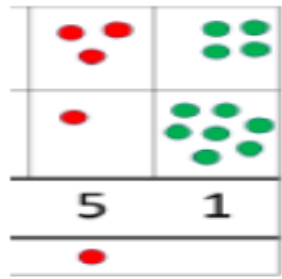

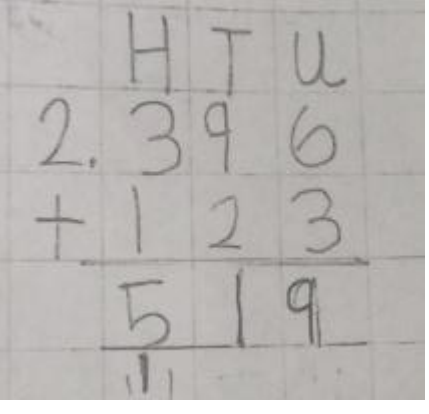

Objective & Strategy	Concrete	Pictorial	Abstract
Combining two parts to make a whole: part- whole model.	 <p>Use part part whole model (left) Use cubes to add two numbers together as a group or in a bar.</p>	<p>Use pictures to add two numbers together as a group or in a bar.</p> 	
Starting at the bigger number and counting on.	<p>Start with the larger number on the bead string and then count on to the smaller number 1 by 1 to find the answer.</p> 	<p>$12 + 5 = 17$</p>  <p>Start at the larger number on the number line and count on in ones or in one jump to find the answer.</p>	<p>$5 + 12 = 17$</p> <p>Place the larger number in your head and count on the smaller number to find your answer.</p>
Regrouping to make 10. This is an essential skill for column addition later.	<p>Start with the bigger number and use the smaller number to make 10. Use ten frames.</p> 	<p>Use pictures or a number line. Regroup or partition the smaller number using the part part whole model to make 10.</p> 	<p>$7 + 4 = 11$</p> <p>If I am at seven, how many more do I need to make 10. How many more do I add on now?</p>
Represent & use number bonds and related subtraction facts within 20.	<p>2 more than 5.</p> 		<p>Emphasis should be on the language</p> <p>'1 more than 5 is equal to 6.' '2 more than 5 is 7.' '8 is 3 more than 5.'</p>

Y2 ADDITION

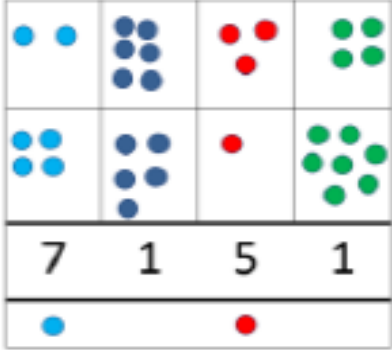

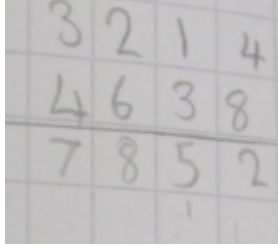

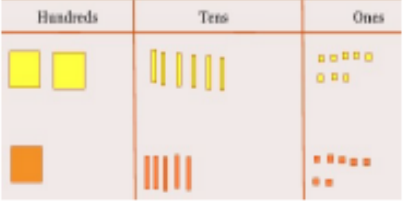

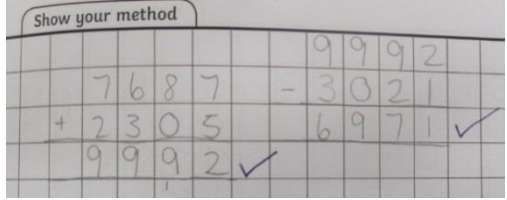

Objective & Strategy	Concrete	Pictorial	Abstract
<p>Adding multiples of ten.</p>	 <p>Using dienes, Base 10, bead strings or equivalent to model units of 10 addition</p>	 <p>$20 + 40 =$ _____</p> <p>2tens+4tens = _____</p>	<p>$20 + 40 = 60$ $70 = 50 + 20$</p> <p>$40 + \text{[blue square]} = 90$</p>
<p>Use known number facts.</p> <p>Part part whole.</p>	 <p>Children explore ways of making numbers within 20 with apparatus.</p>	 <p>Numbers split into Tens (part) and Ones (part) with pictures to make the whole number.</p>	<div style="border: 1px solid black; padding: 5px; width: fit-content; margin: 10px auto;"> <p>Begin to link part, part whole to number sentences.</p> </div>  <p>$20 - \square = \square$ $\square + \square = 20$</p>
<p>Using known facts.</p>	  <p>3 ones + 3 ones = 6 ones 3 tens + 3 tens = 6 tens (make links)</p>	<p>Children draw representations of tens and ones</p> 	<p>$4 + 5 = 9$</p> <p>Leads to $40 + 50 = 90$ Leads to $400 + 500 = 900$</p>
<p>Bar model.</p>			 <p>$23 + 25 = 48$</p>

	$3 + 4 = 7$	$7 + 3 = 10$	
Add the following: a 2-digit number and ones.	 $16 + 5 = 21$ Children explore the pattern. $16 + 6 = 21$ $26 + 6 = 31$	$14 + 5 = 19$  Add the ones: $4 + 5 = 9$ Add the tens to the ones: $10 + 9 = 19$	Explore related facts. $16 + 5 = 21$ $5 + 17 = 21$ $21 - 5 = 16$ $21 - 16 = 5$
Add a 2-digit number and tens.	 $25 + 10 = 35$ Explore that the ones digit does not change.	Number Lines are encouraged $25 + 30$ $+10 +10 +10$ 	$36 + 10 = 47$ $36 + 20 = 57$ $36 + \square = 67$ 
Add two 2-digit numbers.	 Model using place value counters, dienes or numicon.	$+20 +5 +20 +3+2$  Use number line and bridge ten. Use part whole where necessary.	 (Introduced Summer Term only)
Add 3 1-digit numbers.	 Combine to make 10 first and then add third digit.	 Regroup and draw representations. $= 15$	$3 + 5 + 7 = 10 + 5$ 10 $10 + 5 = 15$ Combine the 2 numbers that make/bridge 10 then add the third.

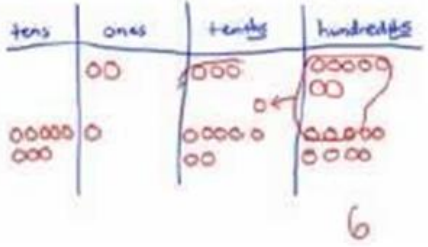

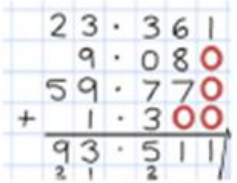

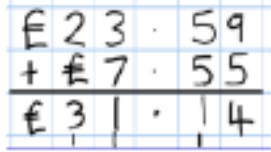

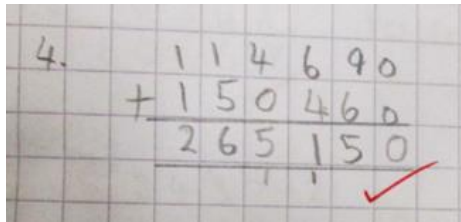

Y3 ADDITION

Objective & Strategy	Concrete	Pictorial	Abstract
<p>Column Addition— no regrouping. (friendly numbers)</p> <p>Add two or three 2 or 3-digit numbers.</p>	<p>Add together the ones first then the tens.</p>  <p>132 + 22</p>	<p>Children move to drawing the counters using a tens and one frame.</p> 	
<p>Column addition with regrouping.</p>	 <p>Exchange ten ones for a ten. Model using apparatus (e.g. numicon and counters)</p>	<p>Children can draw a representation of the grid, to support understanding, carrying the ten.</p> 	
<p>Mental methods should include increasingly large numbers, fractions and decimals. Modelling, including bars and number lines can support these methods.</p>			

Y4 ADDITION

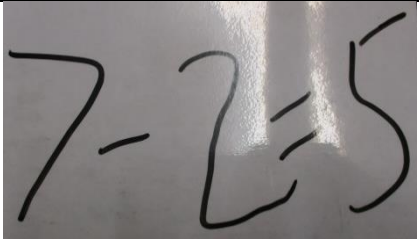

Objective & Strategy	Concrete	Pictorial	Abstract
<p>Add numbers with up to four digits using formal methods.</p>	<p>Children continue to use apparatus to add, exchanging ten ones for a ten and ten tens for a hundred and ten hundreds for a thousand</p>		 <p>Continue from previous year groups.</p>
<p>Column Addition with regrouping.</p> <p>Solving addition two-step problems in context choosing appropriate operations.</p>		 <p>Relate to money and measures</p>	
<p>Estimate and use inverse to check calculations.</p>			

Y5 AND Y6 ADDITION

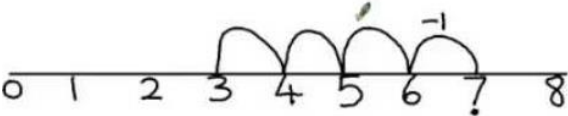

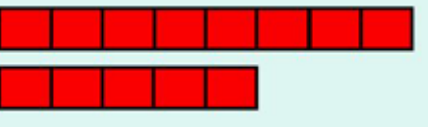

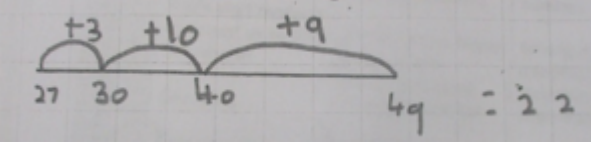

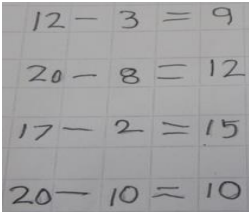

Objective & Strategy	Concrete	Pictorial	Abstract
<p>Add numbers with more than 4 digits.</p> <p>Add decimals with 2 decimal places, including money.</p> <p>Column Addition with regrouping.</p>	<p>Continue to use apparatus and practical resources – e.g. place value cards</p>  <p>As year 4</p>  <p>Introduction of decimals and model exchange for addition</p>	<p>2.37 + 81.79</p> 	<p>8 1,059 3,668 15,301 + 20,551 ----- 1 20,579</p> <p>Insert zeros for place holders.</p>  <p>72.8 + 54.6 ----- 127.4</p> <p>11</p>  

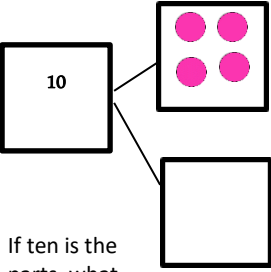

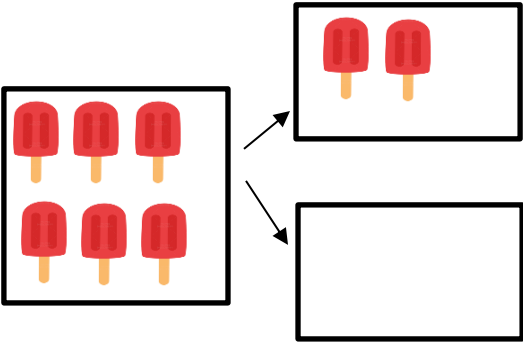

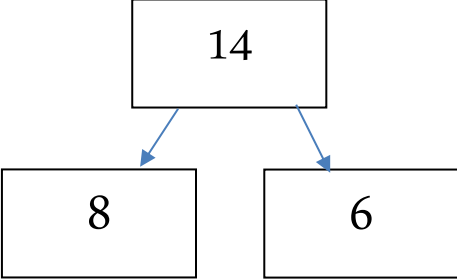

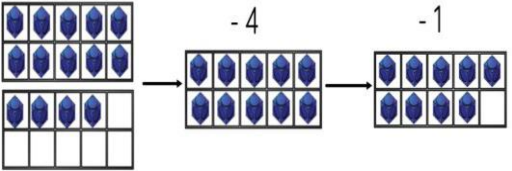

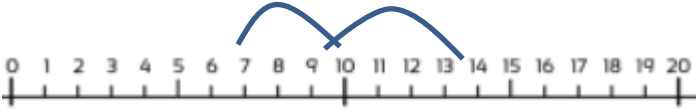

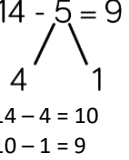

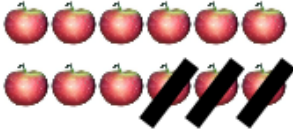

Subtraction Guidance

EYFS SUBTRACTION

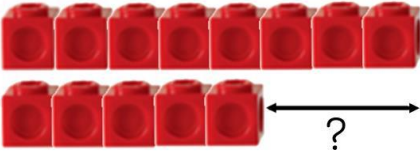

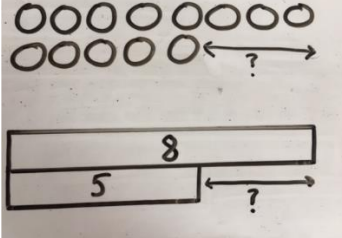

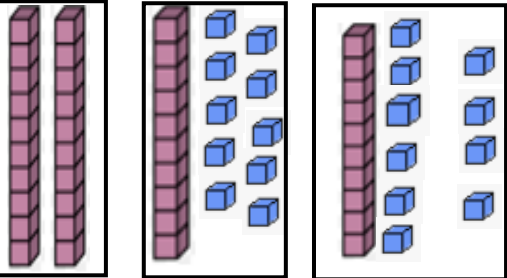

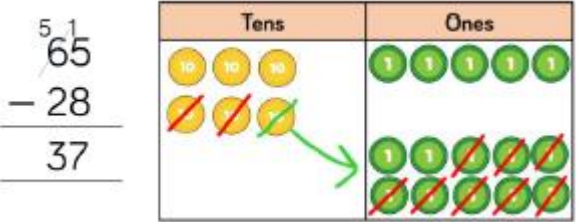

Objective & Strategy	Concrete	Pictorial	Abstract
<p>Use quantities and objects to subtract two single digit numbers and count back to find the answer.</p>	 <p>"7 animals but 2 birds flew away. So now I have 5."</p>	 <p>Draw a representation of each number and cross two off.</p>	 <p>Starting to form number sentences</p>
<p>One less/Taking away ones.</p>	 <p>"I have 8 rocks and I take one away. Got 7."</p>	 <p>Use pictures and cross out one picture.</p>	<p>8-1=7</p> <p>Starting to form number sentences</p>
<p>The introduction and use of appropriate vocabulary is important at this stage.</p>			

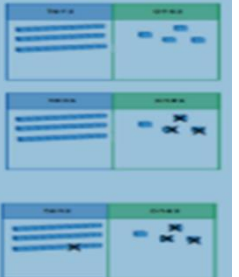

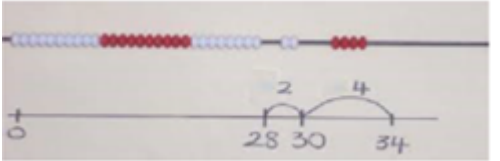

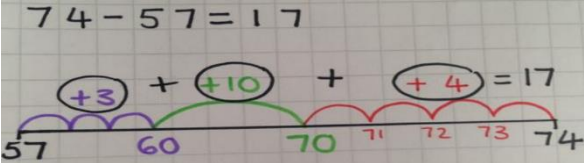

Y1 SUBTRACTION

Objective & Strategy	Concrete	Pictorial	Abstract
Taking away ones.	<p>Use physical objects, counters, cubes etc to show how objects can be taken away. (See early years subtraction)</p>  $4 - 2 = 2$	 $15 - 3 = 12$ Children cross out the objects to show what has been taken away.	Abstract $4 - 2 = 3$ $15 - 3 = 12$
Counting back.	 <p>Move objects away from the group, counting backwards.</p>	<p>Count back in ones using a numberline.</p> <div style="border: 1px solid black; padding: 5px; width: fit-content; margin: 0 auto;"> $7 - 4 = 3$ </div> 	<p>Put 12 in your head and count back 3. What number are you on?</p> <p>Jack has 15 pencils he gives 5 away. How many does he have left over?</p>
Find the difference.	<p>Compare objects and amounts.</p>  <p>Eight is five more than three.</p>	<p>Count on using a number line to find the difference.</p>  <p>Begin to encourage children to use an empty number line to support abstract concepts.</p>	<p>Lucy has 12 sweets and her sister has 5. How many more does Lucy have than her sister?</p> 

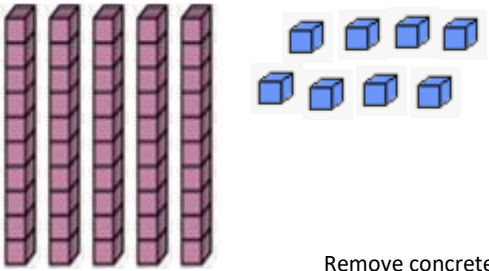

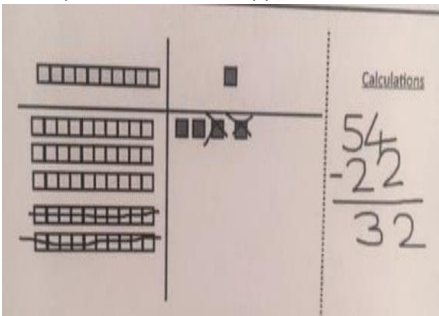

<p>Represent and use number bonds and related subtraction facts within 20.</p> <p>Part Part Whole Model.</p>	 <p>If ten is the parts, what whole and 6 is one of the parts, what is the other part?</p>		<p>Move to using numbers within the part whole model.</p> 
<p>Make 10.</p>	 <p>Make 14 on the 10 frame. Take 4 away to make 10, take one more so you have taken 5. $14 - 5 = 9$</p>	<p>$14 - 7 = 7$</p> <p>Jump back 4 first, then another 3. Use 10 as a stopping point.</p> <p>-3 -4</p> 	<p>$14 - 5 = 9$</p>  <p>$14 - 4 = 10$ $10 - 1 = 9$</p> <p>16 - 8. How many do we take off first to get to 10? How many left to take off?</p>
<p>Bar Model.</p>	<p>I have 12 apples and I eat 3. How many would I have left?</p> 		 <p>$10 = 8 - 2$ $10 = 2 - 8$ $10 - 2 = 8$ $10 - 8 = 2$</p>

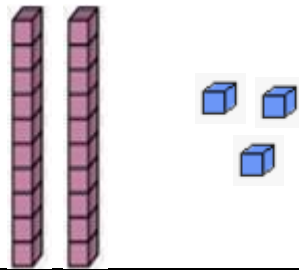

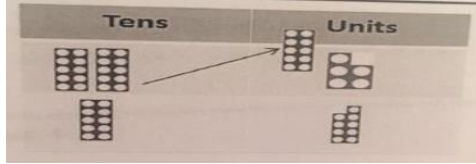

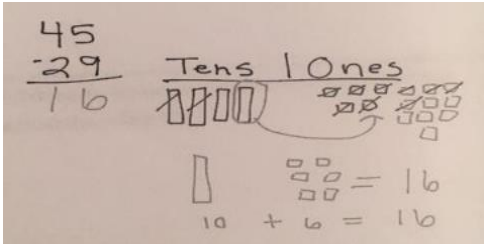

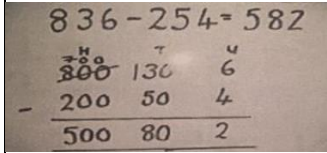

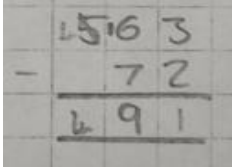

Y2 SUBTRACTION

<p>Objective & Strategy Subtract one or two numbers (upto 100)</p>	<p>Concrete</p>  <p>8-5= <input type="text"/></p>	<p>Pictorial</p> <p>Children to draw the cubes/other concrete objects which they have used or use the bar model to illustrate what they need to calculate.</p> 	<p>Abstract</p> <p>Find the difference between 8 and 5. 8 – 5, the difference is Children to explore why 9 - 6 = 8 - 5 = 7 - 4 have the same difference.</p> <p>8 – 5 = 3</p>
<p>Regroup a ten into ten ones.</p>			

<p>Partition to subtract without regrouping.</p>	<p>$34 - 13 = 21$ Use dienes/ Base 10 to show how to partition the number when subtracting without regrouping.</p>		<p>Children draw representations of Deines and cross off.</p> <p>$43 - 21 = 22$</p> 	<p>At this stage, encourage children to use formal method alongside using equipment (such as Base 10, straws or Place Value Counters)</p> <p>Begin to model how some equipment, like straws, become less efficient methods with larger numbers.</p>
<p>Make 10 strategy. Progression could be crossing one ten, crossing more than one ten, crossing the hundreds.</p>	<p>Use a bead or bar bead strings to model counting to next ten and the rest.</p> 	<p>$74 - 57 = 17$</p>  <p>Use a number line to count on to the next ten and then the rest.</p>		
<p>Recognise inverse operations</p>				

Y3 SUBTRACTION

Objective & Strategy	Concrete	Pictorial	Abstract
<p>Column subtraction without regrouping.</p>	<p>apparatus from group</p>  <p>Remove concrete</p>	<p>Draw representations to support understanding.</p> 	$\begin{array}{r} 768 \\ 345 \\ \hline 423 \end{array}$ $\begin{array}{r} 988 \\ 453 \\ \hline 535 \end{array}$

	<p>58 - 23 = Use or base model.</p>  <p>numicon 10 to</p>		
<p>Column subtraction with regrouping.</p>	 <p>Begin with Base 10 or Numicon. Move onto place value counters, modelling the exchange of a ten into ones.</p>	<p>Children may draw representations to support their understanding.</p> 	<p>Begin by partitioning into place value columns.</p>  <p>Then move to formal method.</p> 
<p>Use inverse operations to check answers</p>			

Y4 SUBTRACTION

Objective & Strategy	Concrete	Pictorial	Abstract
<p>Subtracting tens and ones. Subtract numbers with up to four digits using formal methods.</p> <p>Column subtraction with regrouping.</p>	<p>Base 10 and Place Value counters most effective manipulatives for subtracting numbers upto 4-digits</p>	<p>Children can draw place value equipment to show their exchange.</p> <p>As Year 3.</p>	<p>Ensure that children write the calculation alongside any concrete resources so they can see the links to the written column method.</p>

Introduce decimal subtraction through context of money.

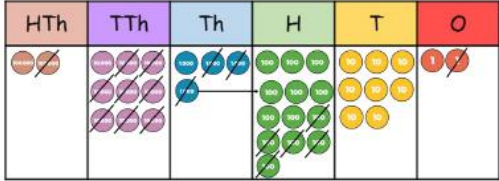

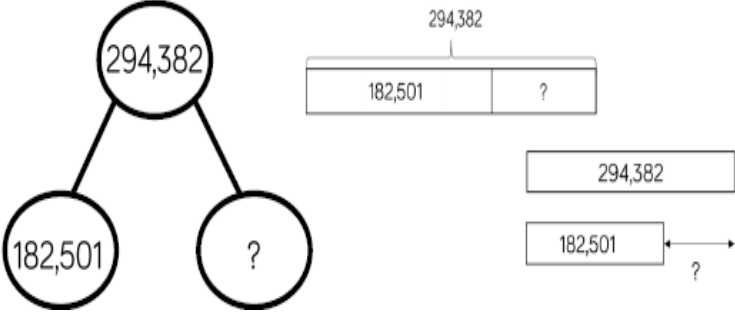

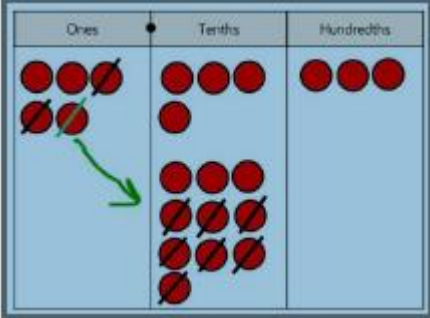

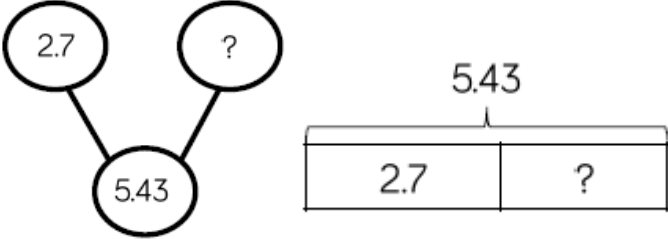

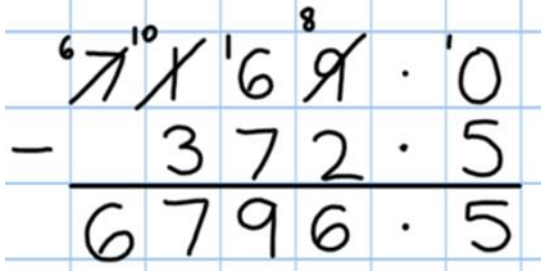

$$4,357 - 2,735 = 1,622$$

Thousands	Hundreds	Tens	Ones

Estimate and use inverse to check calculations.

$76 - 33 = 43$. Inverse to check $33 + 43 = 76$

Year 5 and 6 Subtraction.

Objective & Strategy	Concrete	Pictorial	Abstract
<p>Subtracting tens and ones. Subtract numbers with more than four digits using formal methods.</p> <p>Column subtraction with regrouping.</p>	<p>$294,382 - 182,501 = 111,881$</p>  <p>Base 10</p> 		
<p>Subtract with up to 3 decimal places</p> <p>(Ensure children experience subtracting decimals with a variety of decimal places – including measures)</p>	<p>Place Value counters on a grid are most effective manipulative when subtracting decimals</p> <p>$5.43 - 2.7 = 2.73$</p> 		<p>$\begin{array}{r} 5.43 \\ - 2.7 \\ \hline 2.73 \end{array}$</p> <p>Pupil examples:</p> 
<p>Estimate and use inverse to check calculations.</p>	<p>$76 - 33 = 43$. Inverse to check $33 + 43 = 76$</p>
