Fun Maths games

Why not search 'App' stores to find great activities for children to play on their iPod/iPad or other tablet? There are lots of good resources available for free.

Search for these free apps...

King of Maths

Splash Maths

Maths Dictionary

Another great resource you could try is the Usborne Maths Dictionary. These are available from Amazon and give a great overview of all of the topics we cover in school. They are really clear and easy to use. We do have an example of one in school if you would like to look at one before you buy.

Search for "Usborne Maths Dictionary" on [www.amazon.com](http://www.amazon.com) (there are two versions - choose which one you think is most relevant.)
