The governor data that we lawfully share with the DfE via GIAS:

- will increase the transparency of governance arrangements
- will enable schools and the department to identify more quickly and accurately individuals who are involved in governance and who govern in more than one context
- allows the department to be able to uniquely identify an individual and in a small number of cases conduct checks to confirm their suitability for this important and influential role

Note: Some of these personal data items are not publically available and are encrypted within the GIAS system. Access is restricted to a small number of DfE staff who need to see it in order to fulfil their official duties. The information is for internal purposes only and not shared beyond the department, unless the law allows it.
