Science Workshop

St, Bernadette's are lucky enough to have a strong relationship with the Ogden Trust, a science education organisation. On Wednesday, 52 pupils from across Key Stage Two had the opportunity to attend a science workshop, led by Lancaster University. The event was hosted by Montgomery High School.

Spending time in a real planetarium enabled pupils to experience the first moon landing, the solar system, the constellation of the stars and how a trip to Mars might look! The special effects were spectacular.

Children were then shown into the science laboratories and had hands-on experience with a number of practical experiments such as: liquid nitrogen, levitation, the Van de Graaf generator, how to create an orbiting solar system with marbles and physics and much more!
 Our budding scientists were a credit to St Bernadette's!

Thank you to everyone who attended the sports day this week. It was lovely to see so many families gathering. The children all had the opportunity to shine and I was so proud of their sportsmanship and behaviour.

★ BRONZE AWARD ★

We're very proud to announce that St. Bernadette's has achieved Blackpool's Beat the Bully Bronze award. A huge thank you and well done to the Pupil Voice representatives from Year 1 to 6 for their efforts, and a thank you to the parents in supporting us to achieve this award.

The Blackpool Community Grocery will be coming soon for the people of Blackpool helping to keep families fed and give members access to support too. Shop up to twice a week for £4 each time. [Click here](#) for more information
