

St Edmund Arrowsmith Catholic High School

Prepare the way of the Lord

CHEMISTRY

LEARNING JOURNEY

Teaching pupils a broad science curriculum develops their cultural capital as pupils develop a greater understanding of the natural and physical world, and develop analytical and problem solving skills which will help to support them across their other subjects and in their everyday lives. This is providing pupils with the essential knowledge that they need to be educated as good citizens, introducing them to the best that has been thought and said, and helping them to engender an appreciation of human creativity and achievement.

PREPARE THE WAY OF THE LORD
