

22 September 2020

Dear Parent/Guardian,

Internet Access Survey – Year 7

I am writing to you, during these uncertain times, with reference to the ongoing global pandemic and how we as a school can best mitigate this from having a negative effect on your child's education.

It has been wonderful to welcome your child into our school and we sincerely hope to continue to provide our current level of education for as long as possible. However, due to the number of uncertainties at this time, coupled with the current threat of a potential 'second wave', we believe it important to plan for all eventualities.

To help us make sure we can deliver the right support for you and your child should they be required to work remotely from home, we are conducting a survey with our Year 7 parents to gain a greater understanding of the level of internet access in individual households. A similar survey was conducted with the parents of all our other year groups towards the end of the last academic year and we have used this information to understand which students are able to access our 'live teaching' provision (via the internet) and which need to be provided with an alternative way of learning.

You will have received an email from school containing a link that will take you to a short survey. The survey should take less than five minutes to fill in and I would be grateful if this could be completed by **Monday 28 September 2020**. All data collected as a result of this exercise will be handled in line with GDPR, and all information will only be used with reference to supporting pupil learning from home. You can also access this survey via the following link:

Thank you in advance for your assistance.

Yours faithfully

D Cullen
