

SUBJECT: MUSIC

Year Group	YEAR 10								
Rationale	During the fourth year of our music curriculum pupils will engage actively in the process of music study through following the Eduqas GCSE Music course. Pupils will develop performing skills individually and in groups to communicate musically with fluency and technical control of their instrument / voice. Pupils will develop composing skills through creating and organising musical ideas. Listening and appraising of music from a range of periods, genres and traditions will broaden musical experience and interests, develop imagination and foster creativity.
