

**SUBJECT: GCSE PE:**

Year Group	<b>YEAR 10</b>					
<b>Rationale</b>	Studying GCSE (9–1) PE opens students' eyes to the amazing world of sports performance. Not only do they have the chance to perform in three different sports through the Non Exam Assessment component, they can also develop wide-ranging knowledge into the how and why of physical activity and sport. The combination of physical performance and academic challenge provides an exciting opportunity for your students. They can perform, and then through the academic study learn how to improve their performance through application of the theory.
