### **Whole School Approach:**

High quality first teaching and additional interventions are defined through our annual dialogue across the school contributing to our provision management approach. These documents help us to regularly review and record what we offer EVERY child or young person in our care and what we offer additionally. These discussions also serve to embed our high expectations among staff about quality first teaching and the application of a differentiated and personalised approach to teaching and learning. We make it a point to discuss aspirations with ALL our learners.

Underpinning ALL our provision in school is the **graduated approach** cycle of:

All teachers are responsible for every child in their care, including those with special educational needs.  
(**Reference:** Teaching & Learning Policy)

## **SEN Needs:**

Children and young people's SEN are generally thought of in the following four broad areas of need and support:

<b>Assess:</b>	The school will use data from KS2 SATs, transitional meetings with primary schools at which discussions will take place to highlight any additional support that may be needed once a pupil reaches St Edmund Arrowsmith. In-class, subject based benchmarking taken at the start of year 7, in-class assessment data from teachers and additional testing based upon referrals from concerned staff, parents or indeed from the pupil themselves,  Targeted Education Support Service (TESS) reports and finally Educational Psychologist (EP) assessments.
<b>Plan:</b>	Teaching staff, alongside the SENCo, Directors of Learning (DoLs), support staff and, if necessary, external expertise, will look at how best the learning needs of the young person within their classroom.
<b>Do:</b>	Interventions will range from in-class Quality First Teaching and differentiation (teacher led) to specialist 1-1 provision run by an external specialist (see below for more detailed analysis of specific interventions).
<b>Review:</b>	The classroom teacher and/or provider of 1-1 provision alongside the SENCo to review the progress of the intervention and more importantly transference of the skills to within the classroom will carry out the review. Pupils and parents will also be invited to participate in the review to ensure that their views are felt and heard regarding the intervention.  Having consulted with children, young people and their parents, all our additional provision (internal or external) is based on an agreed outcomes approach.

(Reference: SEN Policy January 2015)

As of **November 2025**, we have 58 young people that are in receipt of additional funding, whilst in the academic year 2025/26 144 pupils accessing additional support during the year. This figure is impacted as pupils are added and removed regularly as the SEND register is reviewed frequently.

We have internal processes for monitoring quality of provision and assessment of need. These include review of assessment data, pupil/parental voice and lesson logs completed by the TAs.

### **Consulting with Children, Young People and their Parents**

Involving parents and learners in the dialogue is central to our approach and we do this through:

<b>Action/Event</b>	<b>Who's involved</b>	<b>Frequency</b>
Pupil Passport Review	Young Person, Parents, TAs and SENDCo	Once per term
Guidance Evening	Parents and teachers	Annually
Parents Evening	Young Person, Parents, Teachers and SENCo	Annually
Annual review of (EHC) provision	Young Person, Parents, Teachers, TAs, SENCO and External Support Providers.	Annually

### **Staff Development**

We are committed to developing the ongoing expertise of our staff. We have current expertise in our school:

<b>Initials of person</b>	<b>Area of expertise</b>	<b>Level (as per p58 of SEN Code of Practice 2014)</b>
DD, CS, DG, MJW,	Talking partners	MPS1
DD, MR	Behaviour Management	Level 4
KB, CS	P Scales	UPS1, Level 4
KB	ELKLAN	UPS1
CS, KB,	Word Wasp	Average Level 4
CS, KB, GS	SoundsWrite	Average Level 4
KB, CS, DG, MO, MW,	Sign Language (Signalong)	All levels (UPS3 to Level 2)
DG GS	Maths Recovery	All levels (UPS3 to Level 2)

As a school we are experiencing more students with a range of different needs, and we need all our staff to be able to teach and support these pupils to enable them to achieve the best they can. All staff have attended a range of training throughout the last academic year (24/25) for ADHD, ASD and Dyslexia. As a school we have been part of the Neurodiversity in schools project for the past 18 months. Training has been offered to all staff in school on a range of different Neurodiverse needs and staff have attended.

A further part of the project was to have a dedicated support from CAMHS one day per month specifically for our Neurodiverse pupils. She worked successfully with large groups of our Neurodiverse students. There has also been 3 parent events where parents are invited in to meet other parents and access support and guidance from wealth of agencies who support Neurodiversity. School would like this will continue into this next academic year.

### **Staff Deployment**

Considerable thought, planning and preparation goes into utilising our support staff to ensure children achieve the best outcomes, gain independence and are prepared for adulthood from the earliest possible age.

All our subject areas within school have a designated TA who supports primarily within that area. We also have 3x level 2 TA to support our more complex needs pupils on a 1 to 1 basis. In addition to this we have an intervention TA who is responsible for delivering specific intervention to our more complex needs pupils. This is done on a needs basis and is tailored to meet the needs of individual pupils as detailed within EHC plans,

All our in class support provided by subject specific TAs is more room based, rather than pupil centric, allowing support staff the opportunity to provide assistance to the more able within the class, whilst the teacher offers support to those that are less able.

Our transition setting offers small classroom provision in some subject areas for our most vulnerable pupils taught by specialist teachers. This gives our most complex needs students an opportunity to access the KS3 curriculum at a more appropriate level whilst ensuring they have an equitable offer that meets their individual needs as per section F of the EHCP.

### **Finance**

Information around SEND finance is available upon request.

A full list of our external partners who we work with can be found in our contribution to the Local Offer. Extending our school approach, we commission using an outcomes-based approach. This enables us to hold our partners and ourselves to account.

### **School Partnerships and Transitions**

Our academic assessment for children and young people with special educational needs is moderated through our cluster of schools and neighbouring partners.

This year, we worked with our feeder partners to welcome a large number of children and young people with special educational needs or disabilities and we supported children and young people transition to the next phase in education or employment.

#### **Our approach involved:**

- Taster days in Year 5.
- Attending Y6 annual reviews of pupils with EHCPs
- Bi-weekly transition afternoons beginning the spring half-term, to allow for familiarisation into school, with tours, treasure hunts and sample lessons part of the programme.
- Three days for transition where all feeder school, plus pupils not from feeder but that have been given a place are put into their respective forms and given a mock timetable, plus lunch in the canteen, to aid familiarity with the school system.
- Meeting with our new pupils with SEND and parents on new intake day in July.

For pupils leaving St Edmund Arrowsmith we work alongside our in-house careers advisors, providing advice on guidance on their pathway post-16. We also liaise with most of our local colleges, including them in transition reviews and providing pertinent information to ensure a smooth transition into further education. We also visit the post 16 providers that our young people with SEN needs are going to go to alongside the pupils to offer support to the pupils and ensure a smooth transition takes place.

### **Complaints**

Our complaints procedure is that all complaints are recorded whether received verbally or written and then the respective member of SLT will investigate the complaint. That member of SLT will review the evidence and action accordingly.

*This year we had 0 formal complaints.*

### **Challenges this year**

Challenges for our school have included: -

1. The dissemination of information to all members of the teaching staff
2. Reviewing the existing provision arrangements
3. Ensuring quality of experience for all students with SEND is the same across all lessons

We intend to address this through: -

1. Continuing to ensure the school system, Arbor is up to date for all pupils with SEND. Ensuring this information is correct, up to date and accessible to all staff. A new improved Pupil Passport for each SEND pupil.
2. A continued programme of assess -> plan -> do -> review is also to be implemented regarding provision that are currently in place, whilst reviewing new and emerging provisions to ensure that St Edmund Arrowsmith is always offering the best quality and variety of provision to meet each student's individual needs.
3. An increase in lesson visits and observations as part of QA process. More focus on implementation of pupil passports within lesson visits. Continue QFT briefings focusing on importance of adaptive teaching. Cause for Concern form to ensure the teacher is adapting the teaching and using strategies to support all students. Monthly SEND drop-ins available to all staff to discuss concerns/issue or anything SEND related to better support pupil needs.

### **Further Development**

Our strategic plans for developing and enhancing SEN provision in our school next year include continuing staff training, both support staff and teaching staff, further focus on the quality of teaching our pupils with SEND receive and the implement a robust system (Cause for concern form) to identify and refer pupils who may have an undiagnosed need or require further assessment and support from external agencies.

In preparing this report we have included staff, parents and children and young people through termly reviews and support afternoons, where issues and provisions are discussed on a regular basis, in addition to private parental meetings, which alongside the students themselves, has led to the development of this information report.
