Year	Total Papers Sent	Total Papers Returned	% Returned
2017/18	227	82	36.1

Remember that in your school you may have very few parents who responded (perhaps because yours is a small school), and/or that some of the later questions chosen from the bank of questions may have only been chosen by a few schools, making the numbers lower and less reliable in the statistical sense. The numbers in each group are indicated on the tables. In some cases therefore, one or two parental responses can move you very quickly up or down in the rankings, which do not take cohort numbers into account. The colours are simply to draw your attention to a question or questions. Please note that the positive and negative columns do not add up to 100% because some parents did not respond to the questions.
