

St. Gregory's Catholic Primary School

Spiritual Development Policy 2022

St. Gregory's Catholic Primary School
Spiritual Development Policy

Mission Statement

"In the Joy of the Gospel, we will work together to be kind, fair and honest, and become the people Jesus calls us to be."

We aim to do this by:

Developing the children's knowledge and understanding of the Catholic Faith and, where appropriate, other religious traditions, by following the Gospel values and providing opportunities for prayer, reflection and spiritual growth.

Ensure children feel cared for and care for each other so that everyone who enters our community feels welcome to engage in examination of and reflection upon their own life stance, to deepen their personal faith responsibility and to respect that of others. 'We will strive for friendliness not loneliness to work together as one body'. (1 Corinthians 12: 27-28)

Providing a broad, well-balanced curriculum in a stimulating and fun learning environment where we recognise the unique qualities in every child and encourage freedom of expression.

Giving children a happy, memorable time at our school, where we promote the child's innate capacity for curiosity, wonder, awe, reverence and imagination to shine in all that they do and for everyone to see - "...so that those who come in can see the light." (Luke 8: 16-17)

Spiritual development involves:-

- The development of insights, beliefs, attitudes and values, which guide and motivate us.
- A developing understanding of feelings and emotions, which cause us to reflect and to learn.
- For all pupils a developing recognition that their insights, principles, beliefs, attitude and values influence, inspire or guide them in life.
- In St. Gregory's, the teaching of personal, social and health education and citizenship, together with our *Come and See* lessons, combine to help our children to acquire insights into their personal existence, which are of enduring worth.

Aims and Objectives.

In St. Gregory's School we aim to encourage pupils' spiritual development by:

- Giving pupils the opportunity to explore values and beliefs, including religious beliefs and the way in which they impact on people's lives.
- Where pupils already have religious beliefs, supporting and developing these beliefs in ways, which are personal and relevant to them.
- Encouraging pupils to explore and develop what animates themselves and others.
- Encouraging pupils to **reflect** and learn from **reflection**.
- Giving pupils the opportunity to understand human feelings and emotions, the way they affect people and how an understanding of them can be helpful.
- Developing a climate or ethos within which all pupils can grow and flourish, respect others and be respected.
- Accommodating difference and respecting the integrity of individuals.
- Promoting teaching styles which:
 - Value pupils and their questions and give them space for their own thoughts, ideas and concerns.
 - Enable pupils to make connections between aspects of their learning.
 - Encourage pupils to relate their learning to a wider frame of reference (e.g. asking why? how? and where? as well as what?)
 - Monitoring in simple ways, the success of what is provided.

The Role of Governors

The Governing Body supports the Headteacher by promoting and developing:-

- The distinctive nature/ethos of the school. The Governors have collaborated in our Mission Statement (motto) - ***Sharing, caring and learning together through Christ.***
- Curriculum subjects especially Religious Education.
- Collective Worship

The Role of the Head Teacher

- It is the role of the Head Teacher to implement a framework of moral values which regulate personal behaviour. This is done through the teaching and promoting of principles and good behaviour, also with a reward system.
- The Head Teacher ensures that our Code of Conduct is observed at all times.

The Head Teacher will promote the following characteristics to develop pupils' spirituality:-

- A set of values, principles and beliefs, which may or may not be religious, which inform their perspective on life and their patterns of behaviour.
- An awareness and understanding of their own and others' beliefs.
- A respect for themselves and others.
- A sense of empathy with others, concern and compassion.
- An increasing ability to **reflect** and learn from this **reflection**.
- An ability to show courage in defence of their aims, values, principles and beliefs.
- A readiness to challenge all that would constrain the human spirit, for example, poverty of aspiration, lack of self-confidence and belief, moral **responsibility** or indifference, force, fanaticism, aggression, greed, injustice, narrowness of vision, self-interest, sexism, racism and other forms of discrimination.
- An appreciation and **curiosity** of/for the intangible-for example, beauty, truth, love, goodness, order, as well as for mystery, paradox and ambiguity.
- A respect for insight as well as knowledge and reason.
- An expressive and/or creative impulse.
- An ability to think in terms of the 'whole'-for example, concepts such as harmony, interdependence, scale and perspective.
- An understanding of feelings and emotions and their likely impact.

The Role of the Teacher.

- Teachers at St. Gregory's school will find effective ways of developing pupils' drive, sense of identity and self-worth. They will develop principles, beliefs and values, including those that have a religious basis, in our children.
- Through the 'Come and See' education programme, the wider curriculum and the relationships we have with the children and the community, the teacher's role includes promoting within the children:-
 - A sense of awe, wonder and **curiosity**.
 - A sense of transience and constant change.
 - An awareness of the possibility of order, purpose and pattern.
 - An awareness that there is often more to things than meets the eye- a sense of transcendence.
 - A sense of the importance of silence and **reflections** and the ability to listen.
 - A sense of self-esteem and worth.
 - An appreciation of the worth and qualities of others.
 - A sense of community and an understanding of its celebrations, rituals, values and **responsibilities**.
 - A sense of joy in life and the worth of play.
 - Awareness of limitations and frustration, loss and the sadder side of life.
 - Appreciation of the natural world and its patterns as a source of meaning and symbols for our existence; seasons, light, bread, water, wind, the earth.
 - Appreciation that freedom and ability to choose are at the heart of human dignity.

The Role of the teacher includes promoting the following skills in our children:-

- An ability to listen.
- An ability to be still.
- An ability to feel for, and respond to experiences with imagination.
- The capacity to perceive pattern in experience.
- The strength to cope with contradiction and the sense of futility.
- The ability and opportunity to **reflect**.

The Role of the Parents.

- Parents have the **responsibility** to support the school's spiritual development policy and to actively encourage their children to fully participate in the life of the school.
- Parents will be invited to participate in assemblies, year group masses, services and celebrations.
- Parents are the child's first educators and as such will continue to promote the sense of awe and wonder within their children.

Pupil Participation.

- At St. Gregory's Catholic Primary school all children are encouraged to have **responsibility** for themselves and to make their own decisions. Opportunities are given throughout the day, during lessons, assemblies etc., for quiet **reflection**.
- The code of conduct helps children to fully participate in the awareness of self and the moral values we cultivate through personal and social behaviour.
- They are encouraged to make decisions and be pro-active in the development of attitude and values which influence them in school life.

Assessment of Spiritual Development.

OFSTED have suggested that pupils may display evidence of having benefitted from provision intended to promote spiritual development if, at a level of appropriate to their ages and abilities, they demonstrate such qualities as:-

- Knowledge of the central beliefs and ideas and practices of major religions and philosophies.
- An understanding of how people have sought to explain the meaning of the universe through various myths and stories, including religious, historical and scientific interpretations.
- Beliefs, which are held personally and the ability to give some account of these and derive values from them.
- Behaviour and attitudes which derive from such knowledge and understanding and from personal conviction, and which show awareness of the relationship between belief and action.
- Personal response to questions about the purpose of life and to the experience of beauty and love or pain and sadness.
- The class teacher will monitor and evaluate the skills attained by children in his/her class according to these qualities demonstrated.

This policy will be reviewed annually by the governing body and any amendments which may be deemed to be necessary will be made accordingly.
