Procedure for the use of mobile phones and cameras

Introduction

The Statutory Framework for the Early Years Foundation Stage states: 'Safeguarding Policies and Procedures must cover the use of mobile phones and cameras in the setting' (EYFS 2012; para 3.4). As a school we support this statutory legislation as part of our responsibilities for safeguarding children.

The use of 'mobile phones and cameras' includes all hand held devices capable of photographic imagery. Images may be distributed via print, DVD, the internet or other technologies. Photographic imagery is integral to the recording of observations and celebration of achievements, and it is not the intention of this procedure to prevent the use of mobile phones and cameras in settings.

This whole school procedure aims to ensure that there are clear guidelines in place which safeguard children, protect the rights of the individual, and provide staff with clear guidelines to follow, ensuring:

- Images are only used for the purpose intended
- Individual rights are respected and child protection issues considered
- Safe storage of setting's phones, cameras, images and memory cards
- Personal phones are locked away in staff lockers / cupboards.
- Personal family photography is allowed where possible
- Parents/carers are given the right to opt out

It is logged out and returned to the child at 3.15pm.**
