

8. Butterfly symmetry art

This craft has the wow factor! All you need is paint and some paper. Simply splodge paint on one half of your paper and fold it in half so the paint spreads on both sides. Carefully open it up to reveal a beautiful butterfly.

It's a great way to teach youngsters about butterflies and how their wings are symmetrical.

Once dry, your butterfly will make a cheerful decoration for your home. Or you could even turn it into a card to send to a grandparent you won't see for a while.
