

Be a woodland artist

Get creative next time you're in the woods

Make like environmental artists Andy Goldsworthy and Chris Drury and create 3D art.

- 1 Gather some twigs of different lengths and thicknesses.
- 2 Choose a flat spot to build your tower. The area under a tree is perfect.

- 3 Place the biggest twigs in a square or triangular shape, or dream up your own design.

Terrific twig towers

- 4 Add your twigs one by one and see how high your tower can go.

Make a low branch or tree trunk part of your sculpture by building around it.

Feel free to copy and share this for personal and educational use – and don't forget there are loads more brilliant activities to download on our website!
