Class 5	Town features Telling the time More numbers	Telling the time My town	My hobbies My diary
Class 6	Days and months Birthdays Classroom objects	My school My family	Describing myself Clothes Weather

This is the planned overview. Classes began using the Primary French Project in June 2022 and I have decided to start each class according to their current knowledge and experience in French. A lot of time was lost during the pandemic and given that many children have suffered some setbacks academically and because the planned work builds on previous learning, we thought it better to let the children master the basics before moving on to more complicated language. Therefore, children may be in Year 6 and covering work planned for Year 5 and so on. This is not a reflection of their ability in French.
