Each cube has a volume of 1 cm³

SCIENCE

- Solve the riddle - What goes on four legs in the morning, two legs in the afternoon, and three legs in the evening?
- Describe the changes you will go through during puberty.

DEAR PARENT

To help our pupils learn more and remember more, we are including a 'Quiz Me Questions' grid to help you ask your child about what they are and have been learning at school.

We are including different types of questions and limiting it to two or three for each curriculum area.

We hope the questions will help you engage in meaningful chat with your child(ren) about their learning at school and encourage them to do a variety of things including:

- Describe key aspects of what they have been learning.
- Recall key facts and knowledge.
- Explain how something works and if appropriate demonstrate their skill in this area.
- Analyse their thoughts and responses with you in greater detail and begin to ask further questions to further develop their understanding.
- Make links with what they already know, have experienced and are able to do.

We hope you enjoy talking with your child about their learning in school!

If you have any questions, please don't hesitate to contact us.

Mrs Lambert and Mrs Porter (Class Teachers)

GEOGRAPHY

- What is the longest river in the world and where is it on a world map?
- Name the main features of a river system.

- Can you explain the water cycle?
