

Good Autism Practice

Gain practical knowledge, and discover hands-on tools and techniques to support autistic learners in your setting.

Who is this training for?

This is a module for practitioners and staff working in a range of Post 16 settings, including General Colleges of Further Education, Independent Specialist Providers, Mainstream and Special Schools with Post 16 provision, Sixth Form Colleges, Work Based Learning Providers and Adult and Community Learning Providers.

What will you learn?

- Appreciate the strengths and learning needs of autistic learners.
- Improve the ways you support the autistic learner to communicate their future aspirations.
- Equip you to work in partnership with the autistic learner to co-create goals for their education.
- Improve your practice in supporting the autistic learner.
- Reflect on, develop, and improve your own knowledge, understanding and practice in working with autistic learners.
- Consider some approaches, strategies, and adaptations you can implement to remove barriers to participation and learning for autistic learners that you work with.
