

Friday Newsletter

26/06/2026

This week at school...

Feeling HOT HOT HOT! Science Day on Tuesday was a wondrous day of experimentation and learning. Please see pages 3-5 of this newsletter for pictures and to discover all the activities the children participated in. This morning Maple class met Mand, whose mission is to help people understand what it is to live with Cerebral Palsy. Thanks for all your support this week, with our extreme heat conditions, the classrooms really were unbearably hot by the end of lunchtime, so the reduction in body heat was a great benefit. I hope it cools a little for us all to get some sleep tonight and that you have a wonderful weekend in the sun - which may just have cooled enough to be out in!

After School Activities

- Lucky Dip, Go Green (Monday)
- Art, (Tue)
- Rounders (Wed)
- Cricket, multiskills (Thurs)
- Choir (Fri lunch)

PTFA

Ice-cream Friday returns next week so don't forget your £1 if you want a cone!

Little Owls Playgroup

We would really like some volunteers for our Little Owls Playgroup, to help set up and clean up - and welcome people as they come in. It takes place every Friday morning during school term. If you can volunteer, even once a month, we would love to hear from you. Please contact Mrs Holder or Anne in the office.

Calendar | Stoke Prior Primary School

Value of the Month

Commitment

Attendance

Evidence shows that good attendance is a key factor in enabling children to reach their potential. Parents are reminded that they should not book holidays in term time as this has a significant effect on a child's progress. We have set our target this year at 97% again, but can we beat last year and get higher? Year to date - 96.5%

Next Week and beyond...

Monday - Whole school photos - please ensure your child is wearing school uniform.
Tuesday - Pre-school and reception 26 induction
Wed - Hereford school games
Thurs - KS1 Forest School, Hereford Yr6 transition day
Fri - Fish and chips lunch year 6

What happens if we mix a solid with a liquid?

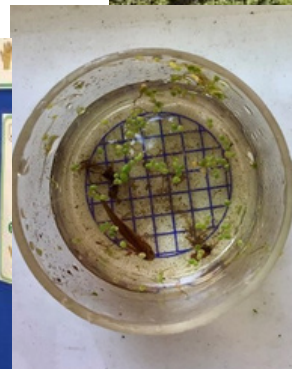

What floats and sinks and how does it work?

Buddy Science Day

We had seven activities starting with the theme of scientific questioning.

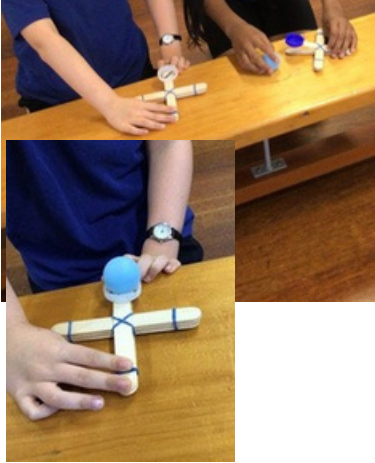

Who discovered gravity?

Can we identify the creatures and plants in our pond?

What forces are working when we throw a loop glider?

What item travels the furthest on the catapult?

How does sound travel and what does pitch mean?
