

# YEAR 2 SPRING

## Computing

In Computing children will be exploring how we can combine images and words to create our own stories.

## Religious Education (RE)

Children will be learning about how we know what is right from what is wrong, and about the festivals of Passover and Easter.

## Music

In music we will be inventing our own musical stories and recognising different sounds.

## History

Children will be exploring our big question, Who was the greatest monarch? by researching influential monarchs in our history.

## DT

In DT we will be investigating what types of wheels and axles we can use to design our own coronation carriages.

## HOW CAN WE HELP THE WORLD?

## Science

In Science we have planned and conducted experiments to compare the properties of different materials. We will also be investigating what plants need to grow and survive.

## Art

In Art we are examining the features of line, practising our skills to create drawings which reflect what makes our local area special. We will also be creating our very own 3D art!

## Geography

In Geography, we are completing our investigations of the natural and physical features of our local environment.

## Physical Education (PE)

During PE we will be improving our flexibility and target skills through Yoga and Ball Skills.

## PSHE

This term we will be learning about what keeps us healthy and how to look after each other and the world.
