

YEAR 2 SUMMER TERM 2026

Computing

In Computing, children will be finding out how they can use devices to share data and solve problems. They will also explore how creative they can be with technology.

Science

In Science, we are learning how we grow and stay healthy. We will also plan and conduct hygiene experiments to investigate how we can stay healthy.

Geography

In Geography, we are asking the question:

- Are Hitchin and Rio de Janeiro the same?
- We will find out about South America and look closely at the country of Brazil. We will look at the natural and man-made features of Brazil and compare these to where we live.

Religious Education (RE)

Children will be learning about how and why we should care for other people. We will also find out about what is important for Christians and Jews.

Art

In Art, we are using mixed media to find patterns in art from other cultures. We will look at examples of geometric Islamic art and explore how shapes tessellate using flat shapes.

PSHE

This term we will be learning about why money and relationships are important. We will hold a fundraiser to raise money for our classrooms, developing our understanding of saving and spending money.

We will reflect on our wonderful time at Strathmore and begin discussing our transition to year 3.

DT

In DT, we will design a wooden photo frame. We handle tools carefully to measure, cut and join our wooden frame together.

Music

In Music, we will be exploring improvisation and have fun singing different types of songs.

Physical Education (PE)

During PE, we will be improving our teamwork and target skills through Striking and Fielding and Net and Wall Games.
