

Year One Autumn Term

Computing

In Computing the children will be learning about mouse skills and how to log on to a desktop!

Art

The children learn how to mix primary colours into secondary colours. They will also explore how significant artists use colour in their own work.

Geography

The children will be introduced to human and physical features and will use maps to develop their positional and directional language.

Science

The children will be introduced to a variety of everyday materials, both man-made and natural. They will also learn the names of their five senses, the body part they are connected to and what their role in keeping us safe is.

RE

The children will be learning about Harvest and how Christians celebrate it. We then explore the Hindu festival of Diwali, also known as the festival of lights.

DT

The children will learn all about the purpose of shelters and their properties! The children will design and make their own shelters.

Music

The children will explore the genres of Hip Hop and Reggae.

Physical Education (PE)

The children will be learning and developing their fundamental skills before being introduced to elements of dance and yoga!

History

The children will be learning about everyday life and families and comparing them with childhood in the 1950s!

PSHE

The children will learn who safe adults are in and around our school. They will also learn about how we can look after each other and our world.
