

Maths Intent Statement

St Stephen's Kearsley Moor
CE Primary School
Believe and Achieve

At St Stephen's CE Primary School our curriculum is designed to:

- Equip all children - irrespective of disadvantage or SEND - with the knowledge, skills, attitudes and aspirations to enable them to contribute to, and succeed in, future society.
- Reflect the home context of many of our children by providing a broad range of memorable learning experiences, within a vocabulary rich environment, to engender positive attitudes to lifelong learning.
- Ensure that all pupils 'learn to read and read to learn' at an age appropriate level and fluency in order to access the full curriculum offer.
- Progressively build upon key skills and knowledge in a planned and coherent way - delivering high quality and timely interventions as appropriate - throughout the key stages.
- At St. Stephens we intend to provide a Maths curriculum which allows children to reason mathematically through creative and engaging lessons. We want children to make rich connections across mathematical ideas to develop fluency, mathematical reasoning and competence in solving increasingly sophisticated problems. As our pupils progress, we intend for our pupils to be able to understand the world, have the ability to reason mathematically, have an appreciation of the beauty and power of mathematics, and a sense of enjoyment and curiosity of the subject.
