

Definitions

HUMAN FEATURES = Things that have been made by people.

For example, roads, buildings and bridges

PHYSICAL FEATURES = Things that are natural. For example, waterfalls, streams and hills

Compass Points

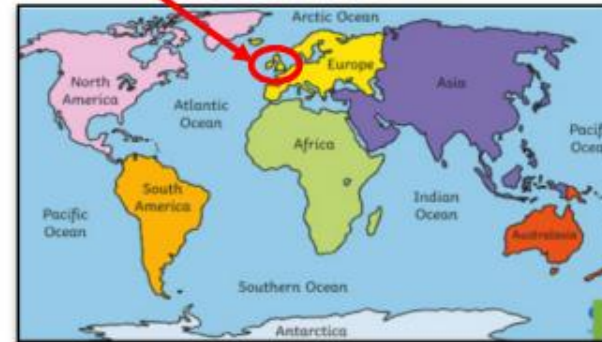

What is Geography?

Geography is the study of the Earth's landscapes, places, people and environments. It is the study of the world we live in.

Geography is all around us!

WHERE IS THE UK?

The United Kingdom (UK) is an Island country located in the continent of Europe, it is made up of four countries: England, Scotland, Northern Ireland and Wales.

4 FIGURE GRID REFERENCES

Along the edges of each map there are numbers. These numbers help you work out where a location is on a map. Northings are numbers that go from bottom to top, Eastings go from left to right.

The first two numbers give the eastings.

32 26

The second two numbers give the northings.

Remember... eastings then northings!

Along the corridor and up the stairs!

MAP SYMBOLS

Symbols are useful for lots of reasons including, space saving on a map, multi-lingual (all languages can understand them), saves time, clear.
