

Are All Mountains the Same?

Subject Specific Vocabulary

Mountain	
Tectonic Plates	
Crust	
Mantle	
Summit	
Foot	
Contour lines	

Associated Diagram

1. Draw a line to ...

Ridge Summit Face

2. Name the different types of mountain.

CHOOSE FROM: plateau, dome, fold, fault-block, volcano

Sticky Knowledge

1. What are the 'Seven Summits'?

2. What is a 'mountain range'?

3. True or False.

Mount Everest is the tallest mountain in the world and can be found in the Himalayas.

Ben Nevis is the tallest mountain in England.

Are All Mountains the Same?

Subject Specific Vocabulary

Mountain	A landform that sticks up high in the surrounding land. In the UK, mountains are landforms 600m or above sea level
Tectonic Plates	Sections of the Earth's crust which move slowly over the mantle
Crust	The hard rocky layer of the Earth
Mantle	The hot, viscous layer of the Earth made of molten rock.
Summit	The highest point of a mountain
Foot	The bottom of a mountain
Contour lines	Lines on a map that show elevation (height). The closer the lines, the steeper the elevation
