Welcome to

Our Approach

At our school, we believe every child deserves to feel valued, understood, and supported. We create a welcoming, nurturing environment where all children can grow and succeed in their own way.

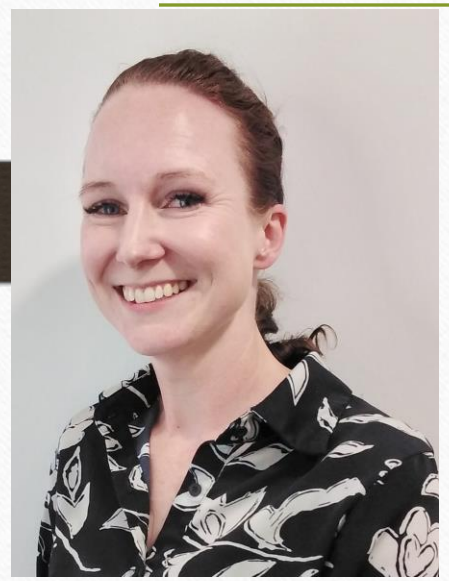

We understand that children communicate in many different ways, and we respect and celebrate them all. Every child's voice matters, and we make sure they feel listened to.

Helping children feel calm and ready to learn is really important to us. We focus on supporting their sensory needs to promote wellbeing and help them enjoy their day.

With extra adult support, we offer personalised activities that help children become more confident, independent, and excited about learning.

We also place great importance on helping children make friends, build relationships, and feel part of our school family.

About us

The Harbour is a Resource Provision Base within Studley Infants' School that meets the needs of children who are unable to access a fulltime curriculum in a mainstream class owing to their complex needs namely Communication and Interaction difficulties including Autism Spectrum conditions.

There will be a maximum of 12 children in the Harbour, all with an Education, Health and Care Plan, and they will be supported by lead teacher Amy Lesser and HLTA Louisa Baker.

We are excited to be providing this provision for the children of Warwickshire with the support of the Local Authority. For more information on Warwickshire Resourced Provision and information about the county admission process, please click on the link.

We have so much fun in the Harbour!

We learn in lots of different ways.

This is where we have our Lunch and do our Learning

Communication

Here at the Harbour we feel it is really important to work closely with our Parents to ensure effective communication and positive relationships are formed to best support the children and their needs.

As a school we use an educational communication platform called Seesaw. This is used across the school and will be accessible to all parents of children within the Harbour. Log in details will be shared with parents once a child started with us in the Harbour. Seesaw enables us to share children work, pictures and wow moments between parents and teachers but also share open dialogue with parents/careers on a secure and private platform.

Due to the nature of the children in our care it can at times be tricky to have conversations at the gate in the morning or afternoons, so parents are encouraged to use Seesaw as the main form of communication. It is checked regularly by a Harbour team member, and replies are sent promptly within the school day. If follow up conversations are required these can be organised again using Seesaw or through contacting Kayley Ship, SENCo- ship.k@welearn365.com

Our Day

Our day begin at 8.45am. Parents bring children through the Harbour Gate from 8.40am and a member of staff will greet the children at 8.45am.

Lunch is between 11.30 and 12.30. Children graze throughout the day and are offered either a packed lunch or hot dinner at lunch time.

Our Day finishes at 3pm. The Harbour gate will be opened at 2.55pm and staff will release the children from the main Harbour door.

What you need everyday

Water bottle

Wipes

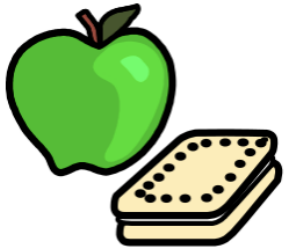

Pull ups

Spare clothes

Welly boots

Snacks

Bags

Waterproof
