School Newsletter

17th July 2020

Message from Headteacher

I would like to take this opportunity to thank all pupils, staff, and parents/carers for the tremendous efforts during this very difficult time.

I wish all Year 11s a bright future and look forward to continuing our success with our Year 10s and other year groups as we move forward together into the new "normal".

Alexis Bull
Headteacher

College Placements

A very high percentage of our KS4 pupils have been accepted on college courses, with subjects ranging from motor vehicle maintenance, construction, public services, hairdressing, creative media, games development and sport and active leisure, to name but a few.

Well done to all of you and we hope you continue to work hard to achieve your personal goals.

Google Classroom

As a whole school, we have set up Google Classrooms for all pupils at Sutton House Academy. Currently, all pupils have been given their log in details however if you are struggling to locate this information, please speak to your child's teacher or tutor. This virtual learning platform is an invaluable tool for learning and has been introduced across the whole Parallel Learning Trust. It is of paramount importance that every pupil logs in every day to see what activities and sessions are available to support their learning from a distance.

Sally Roche

Reminders

*** Year 11s parents–
Exam results
collection day is
20th August 9-11am**

*** Google Classroom
sessions are running
until Tuesday 21st
July, please visit the
school website for
further information.**

Maths

It has been lovely to see, that, in spite of these difficult times, the students are still engaging with Maths. This half term we have been looking at statistics which we are able to link with real life, as there are so many statistics from the government regarding our current situation. This has invoked many topical discussions appropriate to our mathematical theme. Year 11s were absolute stars coming in to school and doing 1 to 1 sessions which meant I got to know them really well. I would like to wish them all well in their next steps.

Michelle Gater
Secondary Maths Lead

Nurture Class

During this half term, Nurture class have had lots of fun doing lots of exciting activities. The pupils really enjoyed the 'Skittles Science Experiment' which involved pouring warm water over the skittles causing the water to make pretty patterns. The pupils really enjoyed watching the patterns emerge and understood the diffusing of the colour through water.

Sarah Wagstaff
Nurture Teacher

English

A big congratulations to the Year 11 students for their dedicated determination, strong commitment and willingness for hardworking to succeed. I wish you all every success for your futures. It has also been a pleasure to see the students returning with such positive mind-sets and an ambition to learn.

Simon Bayly
Secondary English Lead

Primary

We have been having lots of fun in Primary this half term. During our time, we have been doing lots of activities around social skills, creativity, music, and outdoor learning and RSE lessons with our Year 6s. Recently, we have been starting to complete some English and Maths activities as the children are becoming more settled and ready to learn.

Sally Roche
Primary School Teacher

Message from our SENCO

We would like to welcome two new pupils to our Year 6 cohort and to report that they are settling in incredibly well during these unusual circumstances. Both are accessing Google Classroom to support their induction. We look forward to seeing them in school soon.

Sally Carter
