

SEND Open Events

South Essex Colleges Group

At South Essex Colleges Group we understand that open events can be busy and noisy and not suitable for all students with some finding them challenging. After the success of our SEND open events in 2023, we will be hosting additional open events specifically for students who will be coming to college in 2025 with an EHCP. These events will give your learners and their parents/guardians the opportunity to visit the campus when it is quieter, have a look around and speak to some of the staff who will be assisting them whilst at college.

Staff from our Additional Learning Support Team / Supported Internships and Pathway to Independence as well as our Admissions team will be available to offer advice and guidance.

Should a learner require more course specific information we can arrange a one-to-one appointment with a member of that team at a later date.

Whichever type of learning your students need; South Essex College Group has the right course. To find out more about our courses visit: <https://www.southessex.ac.uk/search> .
