

Multi-Agency Referral System

Swiss Cottage School is a community maintained special school. We lead on the coordinated provision and integrated referral system across a number of agencies (NHS Therapists, NHS Health Teams, Child and Adolescent Mental Health Service, Coram, Camden Educational Psychology Service, Camden Multi-Sensory Specialist Service, and the Children and Young People Disability Services for Social Care).

The school has a referral process that begins with our internal 'Family Inclusion Team'. It progresses to the Multi-Agency referral system outlined below. The weekly meeting with the heads of service takes place at the school to ensure the provision context is linked to joint decision making on next steps.

This process links to the Curriculum Overview, Planning & Reflective Enquiry and Assessment Cycle:
