

Develop your creativity:

- Make a model or poster to explain the features of a river
- Research areas that flood and how people who live there protect their houses
- can you create an invention that will stop flooding happening?
- Use your choice of materials to create an artistic interpretation of a river or rainforest landscape.
- Make a model of or draw a landmark in Brazil and research its history.
- Make a Brazilian mood board showing all of the things the country is famous for!

Explore your mathematical skills

- Carry out a water survey. How much water is used and wasted in the UK? Use graphs to represent the data.
- Plan a journey down one of the world's rivers. Show your journey on a map and create a list of provisions you would take.
- Plan a charity event to raise money for those in need due to flooding or to protect the Amazon rainforest - what would you do? How would you make a profit?

This term's theme is:

'Brazil and The Amazon'

Due in: 29th November

Remember... These activities are just ideas! If you have a great idea of your own, then go with it and use your imagination! I look forward to seeing what you've learnt!

Extend your research skills:

- Research how people in South America use The Amazon River.
- Research which charities are out there, helping to save our rivers, oceans and rainforests. Design a leaflet or poster to advertise them and their work.
- Compare physical and human features of The United Kingdom and Brazil.
- Research carnivals in Brazil. Create a carnival guide, costume or mask!
- Research Brazil and The Amazon river and create a travel brochure for them.
