September 2021 Covid-19 Update

The importance of:

- Regular testing – twice weekly
- Masks - optional
- Ventilation – doors and windows
- Hygiene – hands

To keep our
community safe

Ventilation

“As much as possible, fresh air is increased within buildings by opening windows and doors frequently to encourage ventilation, taking account of any potential security or fire safety issues.”

Practically, this means ...

1. Windows open
2. Classroom doors open
3. Corridor doors open
4. Using mechanical ventilation systems as required

Hygiene

Students can use their own sanitiser.
We expect everyone to wash/sanitise ...

1. Before leaving home
2. On entry to a classroom
3. After blowing nose, sneezing or coughing
4. After using the bathroom
5. After touching shared resources
6. Before/after eating
7. Before leaving the site

CATCH IT

Germs spread easily. Always carry tissues and use them to catch your cough or sneeze.

BIN IT

Germs can live for several hours on tissues. Dispose of your tissue as soon as possible.

KILL IT

Hands can transfer germs to every surface you touch. Clean your hands as soon as possible.
