Year 2: Practitioner Inquiry and Specialisation

The second year builds on foundational skills, focusing on four modules that emphasize inquiry-led professional development and specialized practice.

Module 7: Inquiry into enabling pupil learning

- Engage in structured practitioner inquiries to investigate and enhance teaching practices.
- Use evidence to support classroom interventions and promote pupil outcomes.

Module 8: Inquiry into engaging pupils in learning

- Engage in structured practitioner inquiries to investigate and enhance teaching practices.
- Use evidence to support classroom interventions and promote pupil outcomes.

Module 9: Inquiry into developing quality pedagogy and making productive use of assessment

- A full disciplined inquiry – over a term and a half – into a problem of practice
- Collecting evidence of impact in the classroom
- Testing the efficacy of an intervention
- Understanding and sharing findings from practitioner inquiry, to make a wider difference

Module 10: School visits focusing on fulfilling professional responsibilities

- Exploring the implications of being a professional
- Building a professional network, and visiting other settings
