

Partner with Teach West London to train the next generation of excellent teachers

A career that matters.

What are some of the benefits of partnering with Teach West London to train future teachers?

- **Grow your own teachers** - train existing members of staff to become qualified teachers
- **A lasting impact** - have a positive impact on the lives of trainee teachers
- **Courses in salaried and unsalaried routes** - offering QTS only as well QTS+PGCE
- **Choose who trains at your school** - fully participate in the recruitment process of trainee teachers who will be placed in your school
- **Nurture high calibre teachers** - trainee teachers will be immersed in a high-quality curriculum rooted in the latest evidence-based research. They will apply their theoretical learning to practise in the classroom
- **Increase staffing capacity across your school** - trainee teachers will be in school for 4 days a week from day 1 of the academic year
- **Solve recruitment issues** facing most schools by employing their trainee teacher(s) for the following year as ECTs
- **Free Professional development for existing staff to become excellent mentors** - each mentor will receive 20 hours of Teach West London's ITT curriculum as well as mentor skill training. During AY 2024-25, funding will be available from the DfE to release mentors to complete their training (£965 for Outer London Schools and £1072 for Inner London Schools)
