Our Eco-Schools Journey Begins!

We are delighted to announce that this year our school has embarked on an exciting journey towards achieving the Eco-Schools Green Flag Accreditation.

As we become increasingly aware of the effects of climate change, from the loss of plant and animal species to the discovery of microplastics in even the most remote parts of our planet, it has never been more important to take action. Through the Eco-Schools programme, our pupils will have the opportunity to make a real difference by leading environmental projects both within school and in the wider community.

The Eco-Schools framework empowers young people to identify environmental issues that matter to them, develop solutions, and inspire others to get involved. Over the course of the academic year, our students will follow a seven-step process, culminating in an assessment of our work and, we hope, the achievement of the prestigious Green Flag award.

Since its launch in 1994, the Eco-Schools programme has grown into a global movement involving schools in more than 100 countries. Alongside its positive impact on the environment, the programme helps young people develop valuable skills such as leadership, teamwork, problem-solving and confidence, while encouraging a sense of hope and responsibility for the future.

A key part of becoming an Eco-School is involving our whole school community. Over the coming months, we look forward to sharing regular updates, celebrating successes, and inviting families to join us in a range of environmental projects and events.

Spare Clothes

We would be very grateful for any donations of spare clothing for our emergency clothing box in case of accidents during the school day.

Items such as joggers, shorts, leggings, and T-shirts up to 9 years of age and in good condition would be greatly appreciated.

Thank you.

Together, we can help create a greener, more sustainable future for everyone.
